ALLERGENS	Contain Sulfites
R/S	5.8 g/l
ACIDITY	7.4 g/l
ALC. BY VOL.	12%

SERVING SUGGESTION

Chicken, turkey, salads, fish and seafood

TASTING NOTES

This village wine presents itself very fruity in taste and scent as well as extremely minerally. It is a wine characterized by a light-footed tone which is why we like to call the VDP Ortswein Lorch our sporty one. Nevertheless, the wine develops an enormous pressure on the palate. It is a very balanced wine being complex but easy to drink on the same time!

VINEYARD

The grapes for this wine grow on the vineyard sites of Lorch which are shaped by slate and quartzite.

VINIFICATION

Our grapes are hand-picked and go through another selection process afterwards. Each parcel is vinified separately. Shortly before bottling we will assemble the cuvee. The 2023 vintage has been manufactured in stainless steel in our double stored cellar from 1792.

THE ESTATE

When August Kesseler took over his parent's establishment founded in 1924, he was only 19 years old. Back then, mainly bulk wine was produced and the area covered was not larger than 2,5 ha. Under August Kesseler's guidance the estate has become one of the flagship ones of the Rheingau area. Down to the present day it has also acquired high international reputation. Today the vineyard estate contains 32,5 ha in some of the best Rheingau sites like: Assmannshäuser Höllenberg, Rüdesheim Berg Schlossberg, Lorchhäuser Seligmacher, Hattenheimer Wisselbrunnen and many more. We produce 60 % Riesling and 40% Pinot Noir. We are a member of the VDP and the German Barrique-Forum. Max Himstedt is the estate's most experienced and ambitious winemaker who pushes forward the production of word class wines. For a couple of years August Kesseler and especially Max Himstedt have been joined by another ambitious and young oenologist: Simon Batarseh. Together with the first two mentioned and the whole team, Simon is going to lead the estate into the future. Thus, the course is set to keep producing quality wines at the highest stage.
