Château Julia

Founded in 1996, Château Julia is produced by the Domaine Costa Lazaridi estate, crafting white and red wines from indigenous and international varieties in Drama, northeastern Greece.

1. **Single-Varietal Wines:** Drama is known for innovative winemaking techniques and blends – but our single-varietal Château Julia wines showcase the capacity for both native and noble varieties to flourish when matched with ideal terroir and oenological practices.

2. **PGI Drama:** established in 1995, this Protected Geographical Indication is located in northeast Macedonia, Greece – a region with ideal soils, altitude ad microclimates to grow grapes of exceptional quality across a wide range of international and native varieties.

3. **An Emblem of the Region:** the versatile Assyrtiko grape – native to the Aegean Sea region of Santorini – was planted for the first time in Drama by Costa Lazaridi in the late 1990's. Over the past 30 years, it has become an integral part of the region's wine identity.
