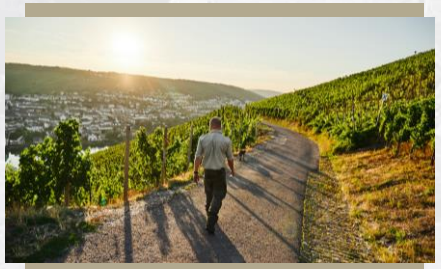
ALCOHOL-REMOVED RIESLING

Medium-Sweet Style

An authentic, terroir-driven German Riesling with hallmark Mosel acidity and slatey minerality – and none of the alcohol.



VINEYARD & HISTORY

Average Vine Age: 10-90 years
The Mosel is part of the warmest climatic zone in Germany. The capability of the river and the soil to store heat and reflect sunlight results in consistent mild temperatures that maximize photosynthesis, making winegrowing possible in this otherwise very cool region. This wine was produced from fully ripe grapes sourced from our vineyards surrounding the town of Bernkastel.

VINIFICATION

Grapes are handpicked and carefully selected, only slightly pressed, then left for 24 hours to macerate before being gently pressed. Natural fermentation without any addition of cultured yeast or enzymes for a period of 4-5 months. After fermentation, the wine matures for several more months on lees to gain stability and complexity. This wine is then gently dealcoholized using the vacuum distillation method – preserving its vibrant fruit, crisp acidity and mineral characteristics.

TASTING NOTES

Complex and juicy aromas of ripe pears, green apple and yellow stone fruits characterize this refreshing, alcohol-removed wine. Very harmonious with a lively, crisp acidity and beautiful minerality.
