Little Giant

ON-X™

STAND TALL. STAY STEADY.

The ON-X Step Stool pairs a stable, oversized platform with the durability of fiberglass and steel — built for quick jobs around the house or on the site.

STORE IT ANYWHERE

A slim 2.5" storage profile means the ON-X tucks away anywhere you have a few inches to spare, and is ready the second you need it.

LARGE STANDING PLATFORM

An expansive 11.5" x 13.75" top step gives you more room to plant your feet, so you can reach, stretch, and finish the job without losing your footing.

BUILT TO OUTLAST THE JOB

Every detail of the ON-X is designed for stability, durability, and everyday convenience.

SCAN TO SEE IT IN ACTION!

ROOM TO STAND, ROOM TO WORK

Spacious 11.5" x 13.75" platform gives you secure, stable footing and plenty of room for the job at hand.

STORE IT ANYWHERE

2.5" storage profile slides into tight spaces — closets, trunks, under the bench, anywhere you have a couple inches to spare.

SLIP-RESISTANT FEET

Slip-resistant feet with a wide base keep the ladder steady on hard floors, carpet, or shop surfaces.
