KINGSTON

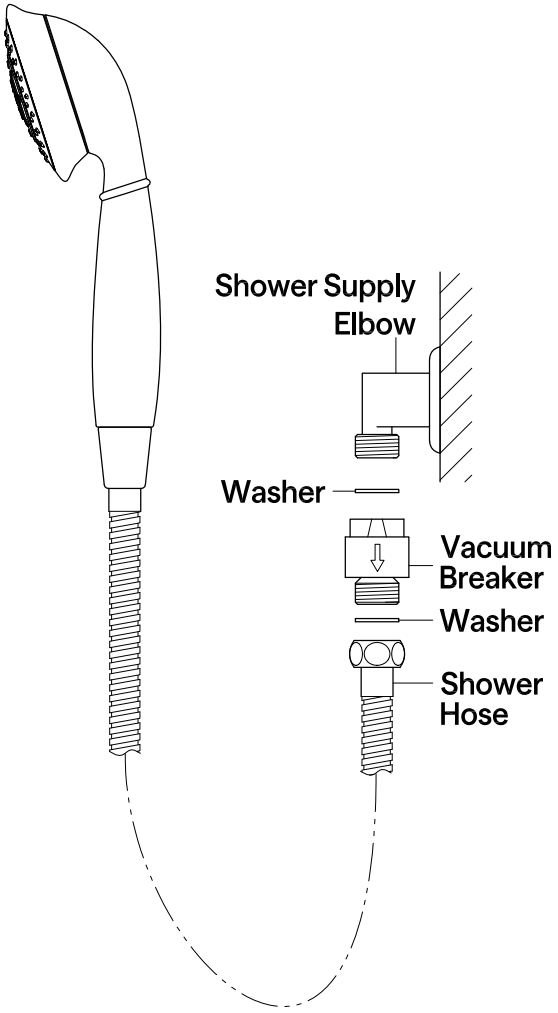
Vacuum Breaker for Shower

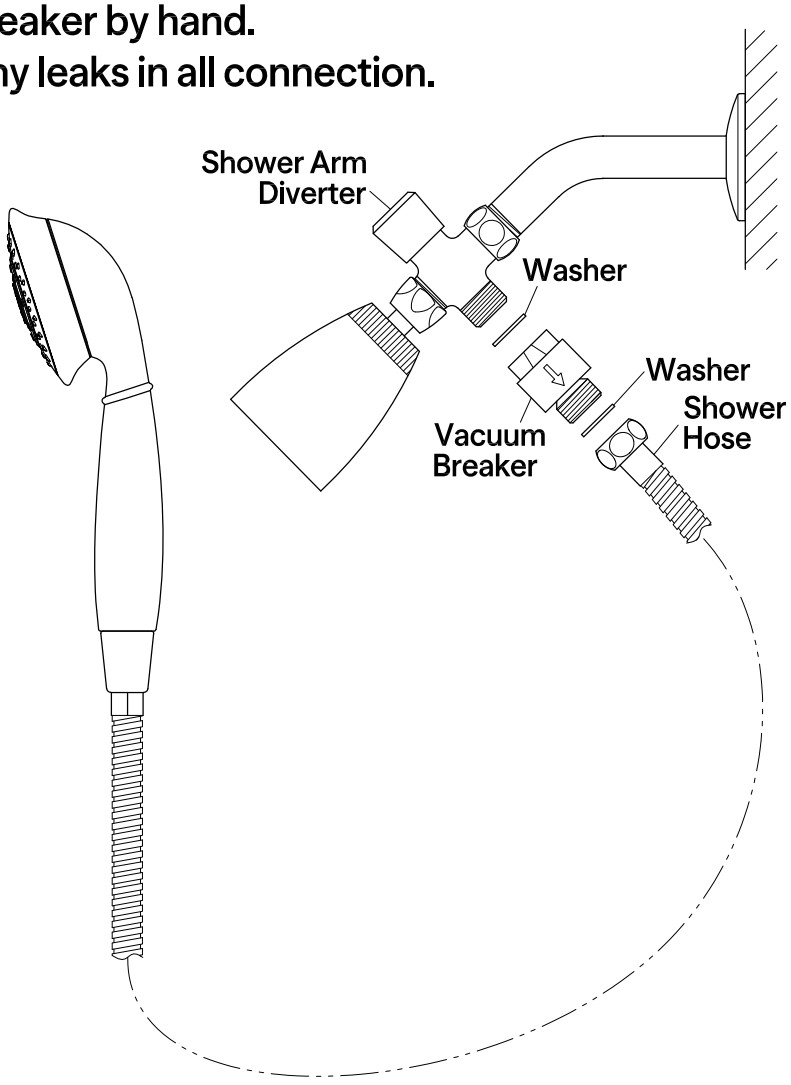
Installation Instructions

Note: The product is marked with an arrow indicating the flow direction. Do not install the product against the direction of water flow.

Installation Step:

1. Remove shower hose from the supply elbow or shower arm diverter.
2. Make sure a rubber washer is in the inlet of the vacuum breaker. Thread the vacuum breaker onto the outlet of the supply elbow or shower arm diverter and tighten by hand. Do Not Over-tighten.
3. Make sure a rubber washer is in the shower hose adapter. Connect the shower hose with the vacuum breaker by hand.
4. Turn on the water to check for any leaks in all connection.





NOTICE

Failure to follow all directions may cause leaks which may result in water damage
