COMBO-10208

Cleaning Bundle W/ Collapsible Bucket

Please retain instructions for future reference.

CARE AND USE

Please retain instructions for future reference.

Directions for use: Remove all of the packaging.

Unfold the bucket by placing one hand into the base and use the other to gently pull the outer rim of the bucket upwards.

Use as required, ensuring that the bucket is empty before it is collapsed for storage.

The bucket folds down into three sections and must be collapsed one section at a time, starting at the top.

Holding the rim of the bucket, push in the first folded until the section collapses.

Smooth out the folded section, so that it is level.

Repeat with the second section.

To fold the final section, push down on one side of the rim until the section folds and then push around the edges until the bucket is fully collapsed.

Warning: Do not overfill the bucket.

Do not use the bucket with boiling water, as the TPR has a maximum temperature threshold of approximately 70 °C.
