

Geometry

Contents

Lesson 1	Area of a Parallelogram	90
	Objective: Compare the areas of parallelograms and rectangles.	
	Manipulative: Geoboards	
Lesson 2	Constant Perimeter and Changing Area	94
	Objective: Observe and generalize about the area enclosed within a constant perimeter.	
	Manipulative: AngLegs®	
Lesson 3	Area of a Triangle	98
	Objective: Compare the areas of triangles and parallelograms.	
	Manipulative: Geoboards	
Lesson 4	Area of Trapezoids	102
	Objective: Determine the area of a trapezoid by dividing it into two triangles whose heights are the same as the height of the trapezoid and whose bases are those of the trapezoid.	
	Manipulative: XY Coordinate Pegboard	
Lesson 5	Shapes in the Coordinate Plane	106
	Objective: Draw shapes on a coordinate grid and describe their properties.	
	Manipulative: AngLegs®	
Lesson 6	Nets	110
	Objective: Explore nets.	
	Manipulative: Relational GeoSolids®	
Lesson 7	Surface Area of a Rectangular Solid	114
	Objective: Find the surface area of a rectangular solid.	
	Manipulative: Snap Cubes®
