Automatically produces up to 55lbs of clear gourmet ice per day.

The XOUI M1565 series icemaker produces large cube gourmet ice that is crystal clear, ideal for use in all kinds of beverages. That's because the rectangular bell shaped cubes are designed to melt slowly and minimize any dilution. The spray molding process allows impurities that can add taste or odor to be continually washed away. It is ice created for the purist in you.

The right ice matters.
