

Barricade Tapes

for the Electrical Industry

Identify and limit access to hazardous areas with Scotch® Barricade Tapes from 3M.

Use Scotch® Barricade Tapes for notification of restricted access to hazardous areas or to manage access to work sites. The barricade tapes can also be used to warn pedestrian traffic of danger or communicate your safety message. Barricade tapes are available in a variety of sizes, thicknesses and materials and are available with various standard messages. Whether you need above ground, buried, detectable or environmentally friendly materials, 3M has a barricade tape to meet your marking requirements.

Scotch® Barricade Tapes 300 Series

Scotch® Barricade Tapes 300 Series are not only effective but economical as well. One roll has sufficient length to designate a large area. The above ground barricade tape rolls are 3" wide, while the buried barricade tape rolls are available in both 3" and 6" widths. The tapes are constructed of durable polyethylene plastic that is designed to help prevent tearing. Bold two-inch black characters on bright backgrounds are designed to attract attention and provide a warning message that is clearly visible. The 300 Series tapes are available in various lengths, thicknesses and with different warning messages.

3M Product Number	Description	Dimension	Background	Legend
Scotch® Barricade Tapes (2 mil)

Scotch® Detectable Buried Barricade Tapes 400 Series

Scotch® Detectable Buried Barricade Tapes 400 Series are designed for accurately locating and helping prevent damage to valuable underground utility installations. The tapes have an aluminum backing that helps make underground assets easier to find when using a non-ferrous locator. Properly installed, these tapes may help avoid catastrophic accidents caused by inaccurate digging. Locate utilities such as electrical lines and communication cables before you dig.

Scotch® Repulpable Barricade Tapes 500 Series

Made of tightly woven cotton fibers, these reusable tapes are an excellent alternative to standard barricade tapes for areas where plastics are undesirable. The 500 Series is appropriate for indoor applications and recycling areas. These non-conductive tapes are supplied on rolls that measure 3" wide by 150' long.
