

WHAT DO PEOPLE DO?

INSTRUCTIONS

CONTENTS

48 Cards

OBJECT OF THE GAME

Be the player with the most matching pairs at the end of the game.

SET UP

1. Parents and caregivers should show young players the Cards and talk about all the different people and locations on them.
2. Shuffle the Cards and place them face-down in a grid so they are accessible to all players. No Cards should be touching.

HOW TO PLAY

1. The youngest player begins the game by flipping over any two Cards from the grid so that all players can see them.

2. If the player finds a person Card that correctly matches a location Card (ex. "Sergeant Murphy" and "a police station"), the player earns those Cards and takes another turn. If the Cards do not match, the Cards are placed face-down in their original position.
3. Play continues clockwise with players flipping over Cards and earning matches. Players should watch carefully as other players turn over Cards so that they remember where matching Cards are when it is their turn.

SPECIAL CARDS

There are two types of special Cards in this game:

- **Lowly Worm:** Players may flip over an additional 2 Cards from the grid.
- **Huckle:** Players may move any 2 Cards that are face-down on the grid.

WINNING THE GAME

Play continues until all Cards have been picked up from the grid. The player with the most matching pairs at the end of the game wins.
