

## Instructions

### SETTING UP THE GAME:

- Choose a play surface that is as smooth as possible (can be a table or the floor).
- Attach suction cups to goals.
- Secure each goal to the surface by pressing down on all 4 suction pads.  
(Note: if the suction pads do not hold well they may need cleaning. To clean them use a damp cloth and water).

### BATTERY INSTALLATION:

- Locate the battery door on the bottom of the puck.
- Using a Phillips screwdriver, remove the screw.
- insert 2 x AAA batteries (not included).
- Replace the battery door.
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.

### HOW TO PLAY:

Use your paddle to strike the puck into your opponents goal. At the same time, defend your own goal by using the paddle to deflect the puck from your opponent. The first player to score 7 points is the winner.

### TURNING THE PUCK ON:

- Locate the ON/OFF switch on the bottom of the puck.
- Turn it on and flip the puck over
- Turn it off any time there is stoppage in play.

### SERVING:

Flip a coin to see who goes first. That person starts with the puck and serves first; this means they have control of the first strike. Thereafter, the player who last conceded a goal gets to serve first.

- You may either sit or stand as long as you remain on your side of the table/floor.

- You only have 5 seconds to hit the puck; if you go over this your opponent gets a free strike at an open goal.
- in order for a goal to count, part of the puck must enter the goal.

(Tip: Defend your goal by holding your paddle close to it, if your paddle is too far away from your goal it is much easier for your opponent to score.)
