IMPORTANT WARRANTY INFORMATION!

WARRANTY AND REPAIR GUIDELINES

SaunaSpa warrants that this portable sauna unit will be free from manufacturer defects and malfunctions. For terms and conditions please refer to the latest SaunaSpa Warranty at www.saunaspa.com/warranty.

Please be advised failure to comply with any of the following will VOID the warranty.

1. Sauna must be registered within 90 days of delivery. See www.saunaspa.com/register.

Warranty Period:

This product is covered under warranty for a period of one year, commencing from the date of purchase.

Requesting Repairs:

In the event that your sauna requires repair, please reach out to our dedicated service center for assistance.

Conditions for Chargeable Repairs:

While many repairs are covered under warranty, there are specific circumstances under which charges will be incurred for material replacement only. These include:

a. Improper Use and Handling:

Damages resulting from usage not in accordance with the manufacturer's guidelines.

b. Voltage Compliance:

Issues arising from operating the device outside the specified voltage requirements.

c. Unauthorized Reassembly:

Any malfunction or damage occurring after the device has been reassembled after initial installation by our authorized supplier.

d. Environmental and Accidental Damage:

Damages caused by natural events, disasters, or fire are not covered under the warranty.

For further information or assistance, visit www.saunaspa.com/warranty or call 866-733-4043.

- Malfunctions, damages, parts replacement and labor resulting from improper installation, negligence, or lack of care and maintenance will NOT be covered under the SaunaSpa Warranty.
- PRIOR TO INSTALLATION, ENSURE THAT THE PRODUCT IS POWERED OFF. DO NOT USE THE PRODUCT IN A HUMID ENVIRONMNET.

Thank You for choosing SaunaSpa for health, beauty and relaxation. Now you can enjoy your own private sanctuary in the comfort of your own home.

USER INSTRUCTIONS

1. Check for visible damages upon delivery of portable sauna. Any damages to packaging should be reported immediately to shipping company delivery representative and SaunaSpa's Customer Service Dept.
2. Check model and accessories are correct, including voltage input. Any discrepancies are to be reported to SaunaSpa's Customer Service Dept. within 48 hours of delivery.
3. Read installation instructions in detail for a secure and effective installation of SaunaSpa portable sauna.
4. SaunaSpa shall not be responsible for product damage or malfunction caused by self-installation or installation procedures which do not comply with user manual.
5. SaunaSpa portable saunas are for indoor use only.

WARNING

Please read carefully before using sauna

- DO NOT use the sauna product with any of the following Health Conditions:
 1. Any type of respiratory condition
 2. Any type of a heart condition
 3. High or low blood pressure
 4. Pregnancy
 5. Any skin disease or disorders
 6. After or during drinking alcohol or alcoholic beverages

Check with your doctor regarding the use of this product if you have any other health conditions.

WARNING

Please read carefully before using sauna

- Unplug the electrical cord after each use.
 - Do not use in wet or damp conditions, there is a risk of electric shock.
 - Keep the electrical cord away from heat sources.
 - Never operate the unit if the electrical cord or plug has been damaged.
 - Do not pull on the electrical cord.
 - Repair must be performed by manufacturer, its service agent or qualified person.
 - Hyperthermia occurs when the internal temperature of the body reaches a level several degrees above the normal body temperature of 98.6°F (37°C). The symptoms of hyperthermia include an increase in the internal temperature of the body, dizziness, lethargy, drowsiness, and fainting. The effects of hyperthermia include:
 - a. Failure to perceive heat
 - b. Failure to recognize the need to exit the sauna, or Physical inability to exit the sauna
 - c. Unawareness of impending hazard
 - d. Fetal damage in pregnant women
 - e. Unconsciousness
 - Obese persons and persons with a history of heart disease, low or high blood pressure circulatory system problems, or diabetes should consult a physician before using a sauna.
 - Persons using medication should consult a physician before using a sauna since some medication may induce drowsiness, while other medications may affect heart rate, blood pressure and circulation.
 - Allow the steamer to cool down for a few minutes before you enter the sauna.
 - Do not touch the steamer with wet hands or feet when it is plugged into the socket.
 - Do not place the steamer in water or in any other liquid with chemicals or detergents.
 - After use, clean away the moisture inside the tent with soft cloth and dry it.
 - Unplug the steamer before performing any maintenance.
-  The use of alcohol, drugs, or medication can greatly increase the risk of fatal hyperthermia.
-  It is highly recommended that you DO NOT use the sauna for over 30 minutes per day and DO NOT use it more than 3 times per week.
-  NOT recommended for use by persons under 18 years of age.

ATTENTION

USAGE PRECAUTIONS

- The sauna is not medical equipment and is not intended to be used for medical purposes.
- Consult your doctor before using the sauna when pregnant or if under medical care.
- Stop using the sauna immediately if you feel discomfort, nausea, or sleepy.
- Do not plug in the electrical cord before the sauna is completely installed.
- Do not plug in while folded for storage.
- Staying too long in the sauna may cause overheating.
- The sauna is not to be used by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience with the product, unless they have been given supervision or instruction.
- Do not let children play with or in the sauna.
- Individuals who may be at risk from hyperthermia, such as individuals suffering from cardiovascular disease, should seek medical advice before use of sauna.
- If you are a person with compromised heat or pain sensation, or under the influence of alcohol or tranquilizers, you should not use sauna.
- If an extension cord (or a long detachable power-supply cord) is used:
 - 1) The marked electrical rating of the detachable power-supply cord or extension cord should be at least as great as the electrical rating of the appliance.
 - 2) If the electrical cord is grounded, use a grounded three prong extension cord.
 - 3) The extension cord should be arranged so that it will not drape over the countertop or tabletop where it can be tripped over, snagged, or pulled on unintentionally (especially by children).

- CAUTION** To provide continued protection against the risk of electric shock:
- 1) Disconnect the electrical cord before filling, rinsing, or cleaning the steamer.
 - 2) Do not fill above the filled level mark.
 - 3) Connect to properly grounded outlets only.
