

## THE BATTERY

1. The battery is the power source for the vehicle.

2. It provides the electrical energy to start the engine.

3. It provides the electrical energy to power the vehicle's accessories.

4. It provides the electrical energy to power the vehicle's lighting.

5. It provides the electrical energy to power the vehicle's horn.

6. It provides the electrical energy to power the vehicle's wipers.

7. It provides the electrical energy to power the vehicle's windows.

8. It provides the electrical energy to power the vehicle's door locks.

9. It provides the electrical energy to power the vehicle's power windows.

10. It provides the electrical energy to power the vehicle's power door locks.

11. It provides the electrical energy to power the vehicle's power windows.

12. It provides the electrical energy to power the vehicle's power door locks.

13. It provides the electrical energy to power the vehicle's power windows.

14. It provides the electrical energy to power the vehicle's power door locks.

15. It provides the electrical energy to power the vehicle's power windows.

16. It provides the electrical energy to power the vehicle's power door locks.

17. It provides the electrical energy to power the vehicle's power windows.

18. It provides the electrical energy to power the vehicle's power door locks.

19. It provides the electrical energy to power the vehicle's power windows.

20. It provides the electrical energy to power the vehicle's power door locks.

21. It provides the electrical energy to power the vehicle's power windows.

22. It provides the electrical energy to power the vehicle's power door locks.

23. It provides the electrical energy to power the vehicle's power windows.

24. It provides the electrical energy to power the vehicle's power door locks.

25. It provides the electrical energy to power the vehicle's power windows.

26. It provides the electrical energy to power the vehicle's power door locks.

27. It provides the electrical energy to power the vehicle's power windows.

28. It provides the electrical energy to power the vehicle's power door locks.

29. It provides the electrical energy to power the vehicle's power windows.

30. It provides the electrical energy to power the vehicle's power door locks.

## DISASSEMBLY

Part No.	Description	QTY	Notes
1	BATTERY	1	
2	TERMINAL POST	2	
3	CABLE	2	
4	FUSE BLOCK	1	
5	CONTROL UNIT	1	

1. Disconnect the battery from the vehicle's electrical system.

2. Remove the battery from the vehicle.

3. Disconnect the terminal posts from the battery.

4. Disconnect the cables from the terminal posts.

5. Disconnect the cables from the fuse block.

6. Disconnect the cables from the control unit.

7. Remove the battery from the vehicle.
