

EP40

HE Laundry Detergent

EP40 HE Laundry Detergent is a high efficiency, concentrated, liquid laundry detergent with controlled suds leaving your clothes and washer clean. EP40 is designed to clean up the toughest stains and is safe on all washable fabrics, including wool and all delicates. EP40 contains water additives for hard water situations and works extremely well in cold water. EP40 is effective in both HE and standard washing machines.

- For use in both HE and standard washing machines
- For use on all washable fabrics, including wool and all delicates

EP40

HE Laundry Detergent

Use instructions

Test inside seam for colourfastness. Check garment care label for special instructions. Separate light from dark colours. For regular loads, pour 60 ml (fill cap to line 2) of EP40 HE Laundry Detergent directly into the washer. For larger loads or heavily soiled loads, pour 85 ml (fill cap to line 3) of EP40 HE Laundry Detergent.

PRE-TREAT: Pour and rub EP40 directly onto the stain.

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.
