

WI-FI 6

eero 6

Fast, reliable Wi-Fi 6 for your connected home.

- Dual-band Wi-Fi 6 with support for speeds up to a gigabit at the gateway and 450 Mbps at additional access points. Coverage up to 1,500 square feet per access point.
- Can be used as a standalone router or as part of a complete mesh wifi system.

eero 6 is the new standard for home wifi. Dual-band Wi-Fi 6 increases your internet's efficiency and reduces network congestion. Stay connected with support for speeds up to a gigabit at the gateway—even as you add 75+ devices. Set up in minutes and get ongoing updates, a built-in smart home hub, and more.

TOP PRODUCT BENEFITS

Wi-Fi 6 supports faster wifi with support for 75+ devices simultaneously.

The eero app walks you through setup in minutes and allows you to manage your network from anywhere.

With the built-in Zigbee smart home hub, eero 6 connects compatible devices on your network with Alexa—so there's no need to buy separate smart home hubs for each device.

Our TrueMesh technology intelligently routes traffic to optimize your connection and reduce drop-offs.

Ongoing updates bring the latest eero features while also helping to keep your network safe and secure.

With cross-compatible hardware, you can easily add eero products as your needs change.

Some features require linking your Amazon account or downloading the Alexa application.

**Some features require linking your Amazon account, and/or downloading the Alexa application or using a compatible Alexa device. Internet connection speeds depend on your internet service provider. Maximum wireless signal rates are derived from IEEE standard 802.11 specifications. Coverage estimates are based on normal use conditions. Actual range and performance can vary, including due to factors such as interference, device usage, building materials, and obstructions. Throughput and coverage estimates are a configuration reference, not a performance guarantee.*
