# Scotch® High-Tack Box Sealing Tape 373+

Developed to withstand the shipping stresses of over- and under-packed boxes.

- High tack adhesive securely seals private carrier single parcel and high-value palletized shipments weighing up to 80 lbs.
- The hot melt adhesive penetrates the shorter fibers of highly recycled corrugate to create a strong bond that holds box flaps tight and protects against pilferage or tampering.
- Available in 48mm and 72mm widths and can be applied by hand for low volume packing with a hand-held tape dispenser or with a 3M-Matic™ Case Sealer for high productivity packing.

Help achieve sustainability goals.

Holds firm on under or overstuffed boxes reducing the need for void fill and dunnage.

Secures with one strip of tape reducing waste from re-taping and overtapping.

Adhesive contains 10% renewable components.

Strong bond on a wide variety of corrugated shipping boxes, including 100% recycled corrugate.
