C95 Series Single-Stage Gas Furnace

Continental's C95 Series gas furnace is the perfect addition to any home. Featuring an EnerSave Pro motor, it boasts energy efficiency and WHISPER QUIET™ operation. A variety of flexfit installation options allow the C95 Furnace to conveniently fit into any space. Superior engineering and design make it one of the most reliable gas furnaces on the market.

Competitive Advantages

- WHISPER QUIET™ operation
- EnerSave Pro motor it boasts energy efficiency ratings up to 82%
- Multi-position (upflow, horizontal and downflow) for versatile installations

Features and Benefits

- 30,000 - 100,000 BTU models available
- Factory-fired and tested for trouble-free start-ups
- Self-diagnostic integrated furnace control (IFC) is mounted between the blower rails for easy accessibility
- Multiple intake/venting, gas pipe and electrical connection options
- Zero clearance in all positions with no additional kits, provides installation ease in closets and alcoves
- Direct vent (two-pipe) and single vent (one-pipe) certified with optional concentric venting
- Integrated furnace control board manages all operational functions and accommodates hook-ups for a humidifier, HRV and electronic air cleaner
- Simple conversion to propane
- Interior condensate trap for left or right drainage options
- Clear condensate collector to view furnace performance

ECM Motor

- Boasts efficiency ratings of up to 82%
- On continuous fan speed, the ECM motor consumes 60 - 80 watts compared to 400 watts for a conventional motor

Modular DESIGN

The heat exchangers and blowers are removable allowing for easy installation and servicing- a feature that makes Continental Gas Furnaces the top choice.
