Friendship Bracelets #1981

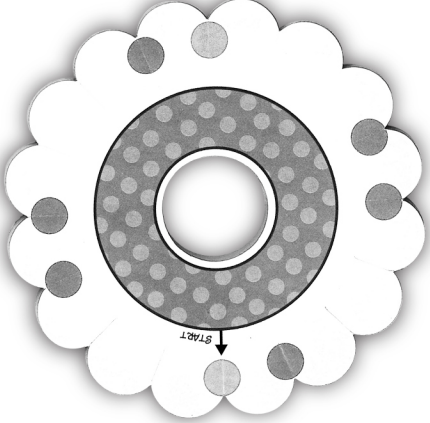

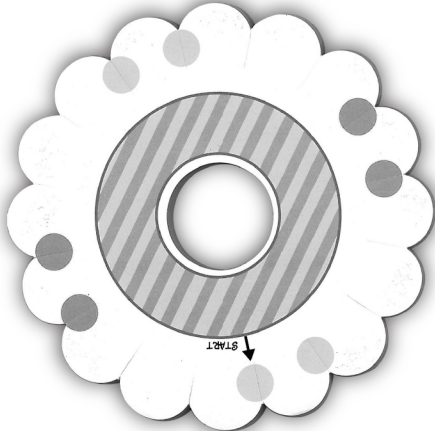

- Tie your floss together with a knot at one end.
- Place the knot in the center of the wheel (frayed edge pointing down)

The large dots on the wheel will show you where to place your threads. The dark and light gray threads printed on the inside diagram represent the 2 different colors you will be using. Follow the diagram carefully. If you need any help, ask an adult or older friend to craft with you.

## Threading the Wheel

**STRIPED**  
Pick your two favorite colors of floss. You will need 8 pieces total, 4 of one color and 4 of the other.

With this kit, you can make 2 different bracelet styles - polka dot pattern and stripes. For each bracelet, you will need 8 pieces of floss, 20 inches long. In order to create these patterns, each bracelet will need a certain number of same-colored threads. Follow the guide below for color selection

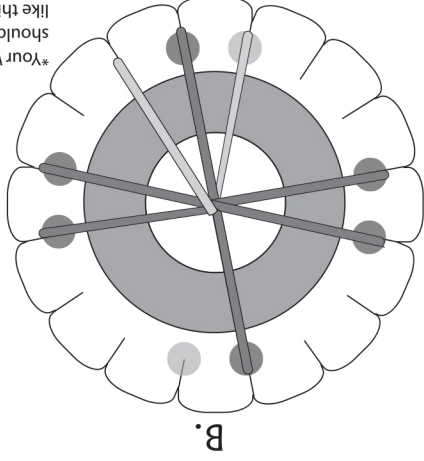

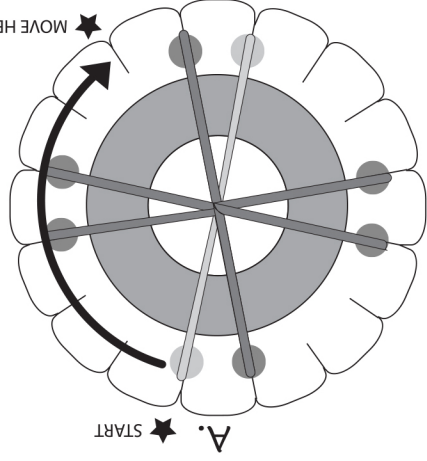

- Pull the floss through the slots. Remember to follow the large dots on your wheel and the diagram for correct color and placement.
- As you work, keep the knot centered in your wheel with the floss pulled tight.

**Helpful Hint – if the ends of the floss begin to fray, use a small piece of tape to keep them together.**

## Ready to Weave

**As you weave, you will be lifting the floss up and moving it to a new slot. Following the arrows and stars on the diagram.**

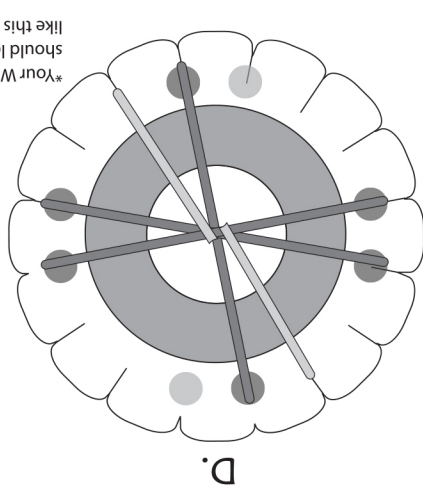

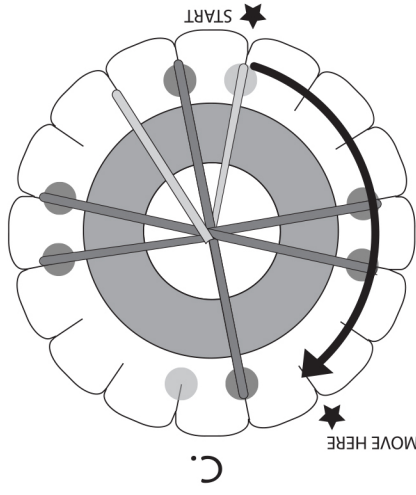

1. Take the top right floss and hook it to the right of the bottom pair.

\*Your Wheel should look like this

MOVE HERE ★

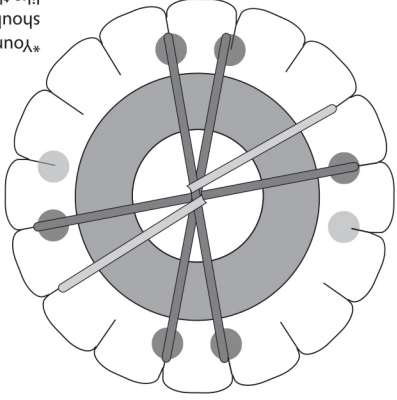

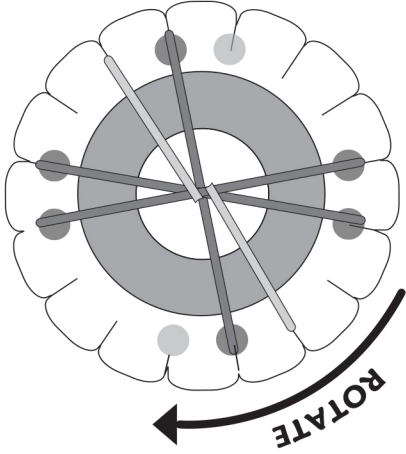

2. Now you have a set of three flosses on the bottom. Take the bottom left floss and hook it to the left of the top floss.

\*Your Wheel should look like this

MOVE HERE ★

3. Rotate the wheel to the right ¼ turn so the next pair of floss is on top.

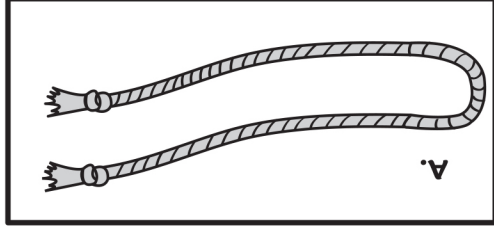

\*Your Wheel should look like this

**After each step, compare your wheel with the diagram to be sure you have done it correctly. On step 3, instead of moving the floss, you will be rotating the wheel as indicated.**

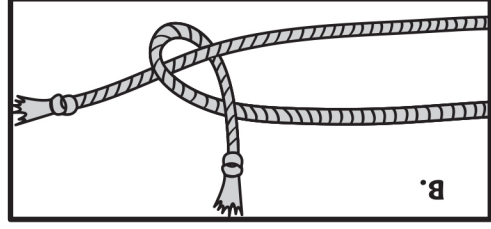

4. You will repeat these basic steps over and over until the floss is used up and your bracelet is finished. When you bracelets are finished, you can share them with your friends and family.

## Cast Off

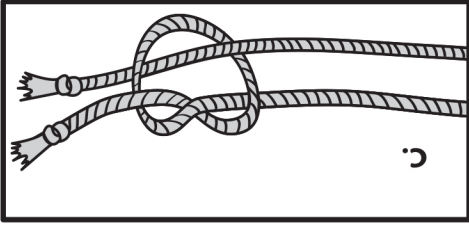

When you are out of threads, gently remove them from the wheel. Tie a knot at the other end of the bracelet. Tie a slip knot, as shown. Put the bracelet around your BFF's wrist!
