Age grade: 0 - 6 months **STOP** using product when baby starts trying to sit up or has reached 20lbs (9.1kg), whichever comes first.

## Pure Support In-Sink Bather

---

### OWNER'S GUIDE

# WARNING

**DROWNING HAZARD:** Babies have drowned while using infant bathers.

- **STAY** in arm's reach of your baby.
- Use **ONLY** in empty sink.
- Keep drain open in sink.
- NOT INTENDED FOR USE IN ADULT or INFANT TUBS.
- Never rely on a toddler or preschooler to help your baby or alert you to trouble. Babies have drowned even with other children in or near bath tub.
- Infants can drown in as little as 1 in. (2.5 cm) of water. ALWAYS bathe your infant using as little water as necessary.

**FALL HAZARD:** Babies have suffered head injuries falling from infant bathers:

- Place bather **ONLY** in sink for safe use.
- **NEVER** lift or carry baby in the product.
- **STOP** using product when baby starts trying to sit up or has reached 20lbs (9.1kg), whichever comes first.
- NEVER bathe baby until you have tested the water temperature. ALWAYS check water temperature before placing child into product.
- Bath water should be between 90° F and 100° F (32.2° C and 37.8° C).
- Make sure all the pieces are properly assembled before placing infant in product.
- NEVER make adjustments or change recline position with child in bather.  
Remove child before adjusting or removing product.
- Discontinue use of product if damaged, broken or disassembled.
- This product is not a toy. DO NOT allow children to play with it.

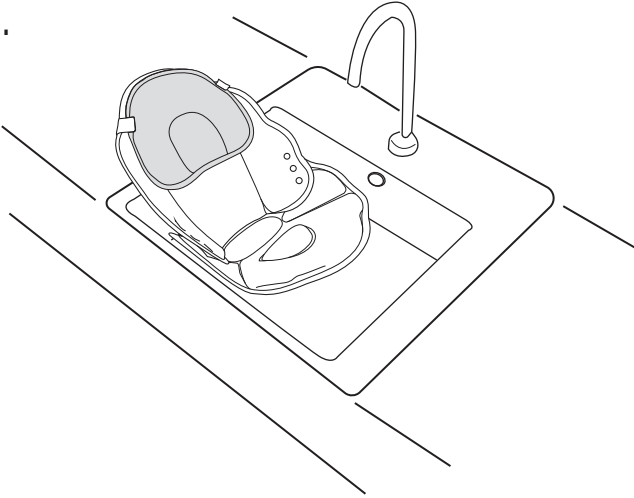

## CARE and CLEANING

**CARE AND CLEANING :** Unfasten snaps to flatten the pad. Machine wash in cold water, delicate cycle.  
DO NOT BLEACH. Line dry. DO NOT IRON.

# adjusting head support height

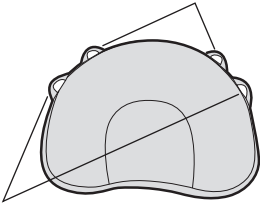

Place bather into sink as shown. Place baby onto the infant bather. You may need to adjust the bather head support and recline position depending on the size of your infant. Follow Step 2 and 3 for adjusting head support and recline position.

1.

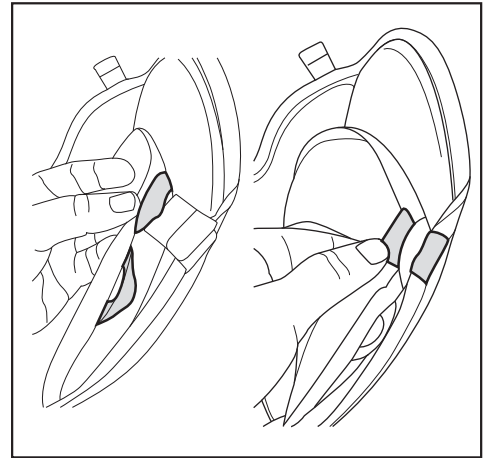

2.

Top loops used for smaller size babies

Side loops used for larger size babies

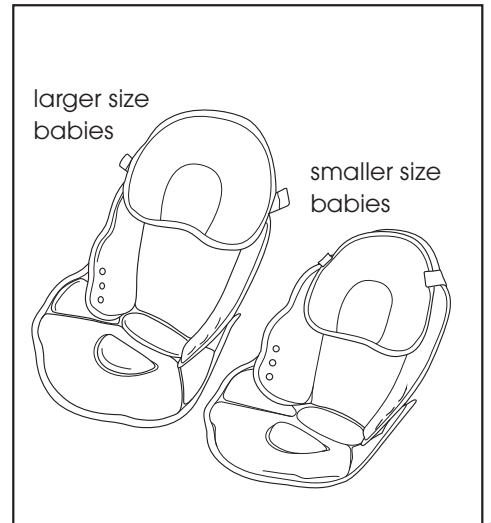

Your head support has two sets of loops for height adjustment. Top loops are for use with smaller size babies. Side loops are for larger size babies.

To secure head support to bather, insert strap through the loops on the head support depending on the size of your child.

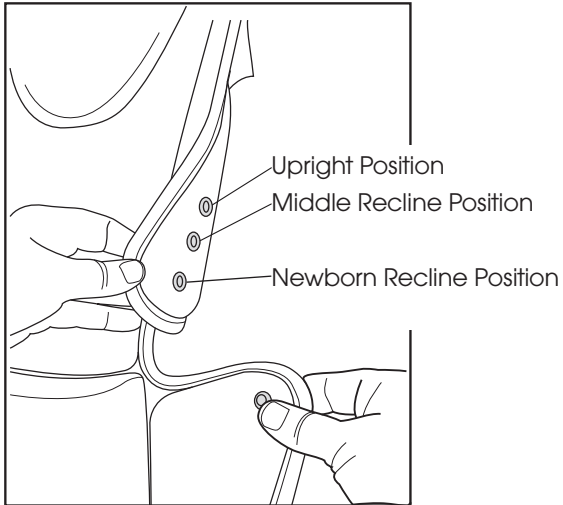

Make sure you use the matching loops on each side of the head support so that they are level.

To remove head support, remove straps from the loops.

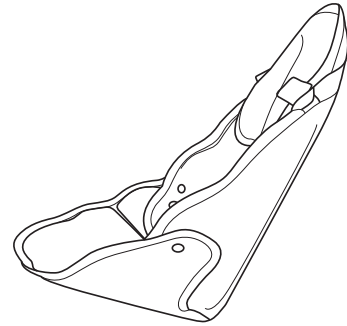

## adjusting recline position

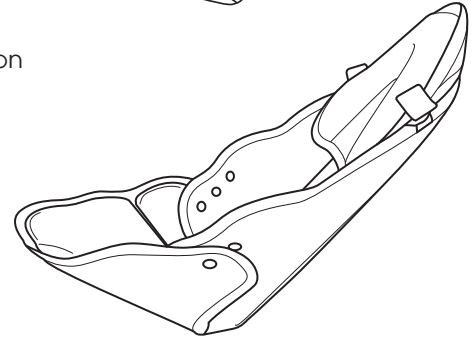

3. There are 3 seat adjustment positions.  
To adjust recline position, unfasten snap and move to different position depending on the size of your infant. ALWAYS make sure you snap the same set of snaps on both sides of the bather so that they adjust the recline angle correctly.

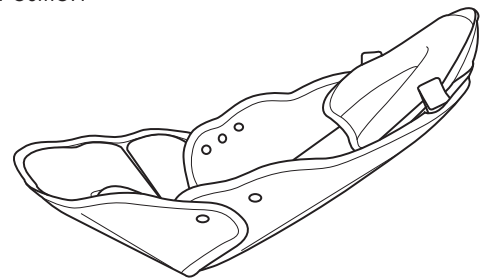

Upright Position

Middle Recline Position

Newborn Recline Position
