There's a 3M solution that will help you mark, protect, seal, repair, attach and so much more.

It's the brand you can count on to complete everyday jobs quickly and reliably.

Mark safety lanes: 3M™ Marking and Safety Tape and the 3M™ Lane Marking Applicator M-1 (pg 66-67)

Marking for visibility and safety: 3M™ Marking and Safety Tape 471 (pg 66)

Temporary masking for wall protection: 3M™ Masking Tapes (pgs 57-60)

Sealing cracks and crevices: 3M™ Polyurethane Construction Sealant 525 (pg 30)

Permanent attachments: 3M™ Double Coated Foam Tape 4496B or 3M™ VHB™ Heavy Duty Mounting Tape 5952 (pgs 68-69)

Attaching, holding and repeated opening and closing: 3M™ Reclosable Fasteners (pgs 75-78)

Self-leveling concrete repair: 3M™ Concrete Repair 600 (pg 26)

Equipment Maintenance Solutions

Clean, lubricate, re-assemble, repair. There's a 3M solution that's close at hand.

For all those everyday jobs that need to be completed, quickly and reliably.

Lubricate and clean moving parts: 3M™ 5-Way Penetrant (pg 22)

Quick repairs:
3M™ Duct Tapes (pgs 61-63)

Reassemble parts:
3M™ Anaerobic Adhesives
(pgs 24-25)

Clean up grease and oil:
3M™ Adhesive Remover (pg 22)

Strong, flexible bonds:
3M™ Rubber and Gasket Adhesives
(pg 26)

Simple versatility:
3M™ Masking Tapes (pgs 57-60)

Heads up—Marking for safety:
3M™ Vinyl Tapes (pgs 66-67)

Electrical Maintenance Solutions

3M™ Fire Protection Products are an integral part of a well-designed fire protection system.

Wrap, fill or mark. There's a 3M solution that can help you make buildings safer.

Fill pipe and cable spaces 5x faster:
3M™ Fire Barrier Rated Foam FIP 1-Step (pg 33)

Firestop multiple penetrations:
3M™ FCS-195+ Composite Sheet with 3M™ Fire Barrier Moldable Putty Stix MP+ (pgs 36-37)
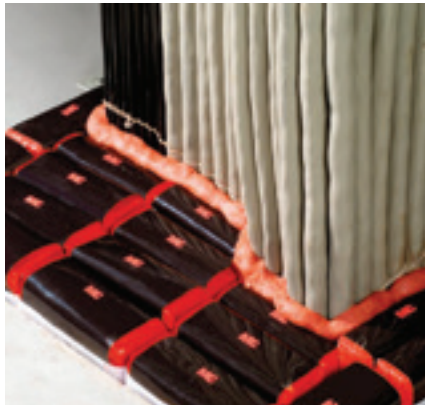

Easy through-penetration firestop:
3M™ Fire Barrier Self-Locking Pillows (pg 36)
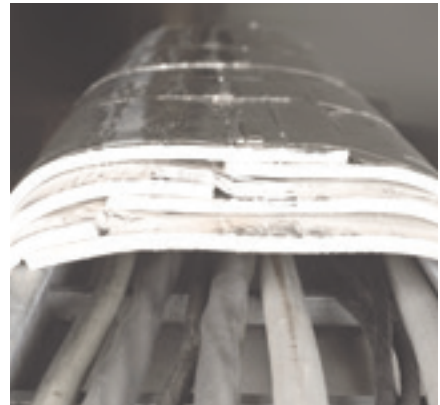

A wrap of protection:
3M™ Interam™ Endothermic Mat E-5A-4 (pg 39)

Maintain electrical components:
3M™ Duct Tapes (pgs 61-63)

Label electrical components:
3M™ Masking Tapes (pgs 57-60)

Superior, low VOC firestop sealing:
3M™ Fire Barrier Sealant CP 25WB+ (pg 32)

HVAC Maintenance Solutions

Easy-to-install fire barrier products designed to take the guess work out of firestopping.

Wrap, fill or mark. There's a 3M solution that can help you make buildings safer.

Flexible protection for grease and air ducts: 3M™ Fire Barrier Duct Wrap 615+ (pg 38)

Firestop HVAC line sets: 3M™ Fire Barrier Rated Foam FIP 1-Step (pg 33)

For permanent fastening: 3M™ Scotch-Weld™ Threadlocker TL77 (pg 25)

For rigid and flexible ductwork: 3M™ Venture Tape™ 1581A (pg 65)

Sealing metal duct lines: 3M™ Fire Barrier Sealant CP 25WB+ (pg 32)

Bond polystyrene with no surface degradation: 3M™ Polystyrene Insulation 78 Spray Adhesive (pg 20)

Protection for return air plenums: 3M™ Fire Barrier Plenum Wrap 5A+ (pg 38)

Metal Repair and Maintenance Solutions

Bond, seal, attach, clean, repair. There's a variety of 3M solutions designed for metal components.

Keep these popular products on hand for everyday jobs and quick repairs.

Dependability and versatility on a roll: 3M™ Venture Tapes™ (pgs 64-65)

Immediately bond and seal: 3M™ Neoprene High Performance Rubber and Gasket Adhesive 1300 (pg 26)

Replace rivets, bolts, screws and welds: 3M™ VHB™ Tapes (pg 68-69)

Quickly attach signage: 3M™ Mounting Tapes (pg 68-69)

Interior sealing: 3M™ Polyurethane Sealant 540 (pg 30)

Free frozen threaded parts: 3M™ 5-Way Penetrant (pg 22)

Adhere and seal threaded assemblies: 3M™ Scotch-Weld™ Threadlockers (pg 24-25)

General Facility Maintenance Solutions

Repairs go faster when you've got the right products for the job. Whether for short-term use or long-term performance, 3M has a solution.

Keep these popular products on hand for everyday jobs from clean-ups to emergency fixes.

Clean up gunk and grime: 3M™ Adhesive Remover (pg 22)

Reliable bonding of dissimilar substrates: 3M™ Scotch-Weld™ Structural Adhesive DP8010 (pg 28-29)

Industrial paint masking and more: 3M™ Masking Tape 301+ (pg 58)

Pallet unitizing keeps boxes together: 3M™ High Strength Tapes (pgs 47-49)

Quick, reliable box sealing: 3M™ Box Sealing Tapes and Dispensers (pgs 40-46)

Firestop metal or CPVC fire sprinkler lines: 3M™ Fire Barrier Sealant IC 15WB+ (pg 32)
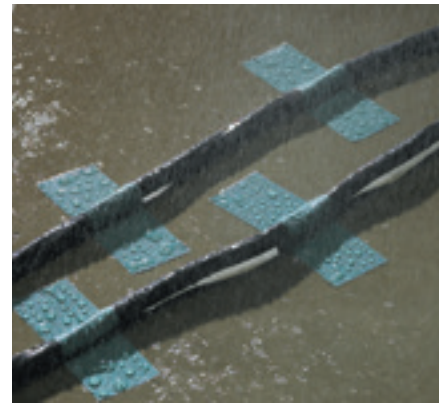

Waterproof backing resists moisture: 3M™ Performance Plus Duct Tape 8979 (pg 62)

Aerosol Adhesives

Performance. Productivity. Portability.

3M™ Super 77™ Multipurpose Spray Adhesive

An extremely versatile, fast-drying spray adhesive that bonds a wide range of lightweight materials. Our permanent bond provides fast results to keep projects moving ahead.

- Fast, aggressive tack for a quick bond that reduces set time
- Extended bond time allows 15 seconds to 30 minutes after application before attaching surfaces
- Bonds paper, cardboard, fabric, insulation, plastic, metal, wood and more

New sizes

Lead Product	UPC	Size	Net Wt.	Color	Case Qty	Units
	0-00-21200-**21210**-9	24 fl oz	16.75 oz	Clear	12	CN

	0-00-21200-**96474**-9	6 fl oz	4.4 oz	Clear	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Super 77™ CA Multipurpose Spray Adhesive – Low VOC <25%

This fast-drying adhesive bonds a wide range of lightweight materials quickly. A low-VOC version of 3M™ Super 77.

- Low soak-in and long open time
- Bonds paper, cardboard, fabric, cushion foam, plastic, metal, wood and more
- Low VOC, <25%, aerosol is GREENGUARD Children and Schools Certified[SM], meets CARB, OTC and LADCO requirements, and helps contribute to LEED® credits

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-51111-**97956**-3	24 fl oz	18 oz	Clear	12	CN

3M™ Hi-Strength 90 Spray Adhesive

A versatile, fast-drying adhesive that forms extremely strong bonds on a wide array of materials and works well with plastic, metal, wood and much more.

- A very aggressive tack for high initial grab plus sufficient open time to position materials properly
- Variable-width spray pattern for more control, minimum waste
- Provides higher coverage than competing spray adhesives
- Creates soft, non-dimpling glue lines for clean appearance

Lead Product	UPC	Size	Net Wt.	Color	Case Qty	Units
	0-00-21200-**30023**-3	24 fl oz	17.6 oz	Clear	12	CN

	0-00-51111-**07278**-3	24 fl oz	17.6 oz (Inverted)	Clear	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Hi-Strength 90 CA Spray Adhesive – Low VOC <25%

An all-around adhesive capable of forming extremely strong bonds on a wide array of materials. A low VOC version of 3M™ High Strength 90.

- Bonds woods, laminates, polyethylene, polypropylene, metals and more
- High coverage, variable-width lace spray pattern
- Low VOC, <25%, aerosol is GREENGUARD Children and Schools Certified[SM], meets CARB, OTC and LADCO requirements, and helps contribute to LEED® credits

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-51111-**97957**-0	24 fl oz	19 oz	Clear	12	CN

3M Low-VOC Line

Meets California Air Resources Board (CARB), Ozone Transport Commission (OTC) and Lake Michigan Air District Consortium (LADCO) VOC requirements, is GREENGUARD Children & Schools Certified[SM], and helps contribute to Leed® credits.

For industrial/occupational use only. Not for consumer sale or use.
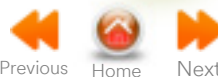

3M™ Pressure Sensitive Spray Adhesive 72

A permanently tacky, industrial grade spray adhesive ideal for many one-surface bond applications. A touch of blue color helps with precise application.

- Adhesive remains permanently tacky for easy repositioning
- Very long open time allows bonds to be made hours or days after application
- Variable spray pattern minimizes waste and overspray

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-21200-**30025**-7	24 fl oz	17.3 oz	Blue	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Foam Fast 74 Spray Adhesive

A fast-drying spray adhesive that bonds foam and fabric to a wide range of substrates. Its permanent bond provides fast results to keep projects moving ahead.

- Non-yellowing formula dispenses easily in a lace-spray pattern optimized for foam bonding
- Provides professional, industrial strength for demanding applications
- Offers a fast, aggressive tack for a quick assembly of high-stress bonds
- Allows for a bond time of 15 seconds to 30 minutes

Lead Product

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-21200-**50045**-9	24 fl oz	16.9 oz	Clear	12	CN
0-00-21200-**82242**-1	24 fl oz	16.9 oz	Orange	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Foam Fast 74 Spray Adhesive – Low VOC <25%

A low-VOC version of 3M™ Foam & Fabric 74 used for bonding flexible urethane or latex foam together and to bond other materials such as wood, metal and plastics.

- Non-yellowing formula dispenses easily in a lace-spray pattern optimized for foam bonding
- Low VOC, <25%, aerosol is GREENGUARD Children and Schools Certified℠, meets CARB, OTC and LADCO requirements, and helps contribute to LEED® credits

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-51111-**97967**-9	24 fl oz	19 oz	Clear	12	CN
0-00-51111-**97958**-7	24 fl oz	19 oz	Orange	12	CN

3M™ Repositionable 75 CA Spray Adhesive - Low VOC <30%

This versatile, pressure sensitive adhesive spray provides a "tape-like" bond on many lightweight materials and is suitable for temporary holding or positioning. It adheres in seconds, yet has an extra-long tack range that allows repeated lifting and repositioning of materials.

- Adhesive holds strong yet removes easily for repeated use
- Low soak-in formula allows the bonding of lightweight substrates without damage
- Formula resists bleeding and staining
- Dries clear, producing a smooth glue line and resists wrinkling on most materials

UPC	Size	Net Wt.	Color	Case Qty	Units
0-06-38060-**14620**-0	16 fl oz	10.25 oz	Clear	12	CN

3M™ Polystyrene Insulation 78 Spray Adhesive

A high strength, high temperature resistant, industrial grade spray adhesive effective for bonding most insulation: fiberglass, expanded polystyrene foam, and extruded polystyrene foam.

- Inverted spray technology for less waste, better coverage
- Bonds polystyrene foam without dissolving or degrading
- Fast-drying formula helps speed assembly

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-21200-**41593**-7	24 fl oz	17.9 oz	Clear	12	CN
0-00-51111-**07279**-0	24 fl oz	17.9 oz (Inverted)	Clear	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Rubber and Vinyl 80 Spray Adhesive

A high performance, neoprene-based contact aerosol spray adhesive ideal for bonding rubber and vinyl sheets, including weather stripping.

- Features exceptional heat resistance for long-term durability
- Fast-setting contact adhesive produces rapid results
- Resistance to plasticizing oils allows for bond resilience

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-21200-**82618**-4	24 fl oz	19 oz	Yellow	6	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Hi-Strength 94 ET Spray Adhesive - Low VOC < 20%

Creates an aggressive, postformable bond for attaching decorative laminate, metal and some rubber substrates.

- Features longer open time and more aggressive tack than comparable adhesives
- Effectively bond metals, wood, rubber, carpet and flooring
- Low VOC, <20%, aerosol is GREENGUARD Children and Schools Certified℠, meets CARB, OTC and LADCO requirements, and helps contribute to LEED® credits

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-51111-**97977**-8	24 fl oz	19.8 oz	Clear	12	CN

20

For industrial/occupational use only. Not for consumer sale or use.

Strength meets simplicity.

Choosing the correct aerosol adhesive just got even easier.

Aerosols for Packaging

3M™ Shipping-Mate™ Case Sealing Adhesive

Features a clear, fast tack adhesive that permanently seals closure flaps on many corrugated shipping containers.

- Holds securely
- Quick drying
- Long lasting

UPC	Size	Net Wt	Color	Case Qty	Units
0-00-21200-**30024**-0	24 fl oz	17.3 oz	Clear	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Shipping-Mate™ Palletizing Adhesive

This clear, fast tacking adhesive holds plastic bags or coated cartons onto pallets.

- Low mist formula
- Easy separation after shipment

UPC	Size	Net Wt	Color	Case Qty	Units
0-00-21200-**85844**-4	24 fl oz	16.7 oz	Clear	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

Designed for Cost Sensitive Applications
20, 24, 27

3M™ Heavy Duty 20 Spray Adhesive

Forms a powerful, permanent bond to wood, laminate, metal, plastic and more. Simply spray the adhesive on one or both surfaces, wait 15 seconds to 30 minutes, and press surfaces together to form a tight bond.

- Fast, aggressive tack and low soak-in eliminates clamping and dry time
- Variable lace spray pattern allows precision placement
- Extended bond time allows 60 seconds to 30 minutes before attaching surfaces

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-51111-**07861**-7	20 fl oz	13.8 oz	Clear	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Foam & Fabric 24 Spray Adhesive

An economical, fast-drying spray adhesive that bonds foam and fabric to a wide range of substrates. Permanent bond provides fast results to keep projects moving ahead. Non-yellowing formula.

- Dispenses with a lace-spray pattern optimized for foam bonding
- Provides industrial strength for demanding applications at an economical price
- Offers a fast, aggressive tack for a quick assembly of high-stress bonds
- Allows for a bond time of 15 seconds to 30 minutes

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-51111-**07862**-4	20 fl oz	13.8 oz	Orange	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Multi-Purpose 27 Spray Adhesive

Quickly bonds paper, cardboard, fabrics, soft foams, plastic films, fiberglass insulation and other lightweight materials. Simply spray the adhesive on one or both surfaces, wait 15 seconds to 10 minutes, and press surfaces together to form a tight bond.

- Fast tack helps eliminate dry time
- Mist spray pattern helps ensure better coverage
- Extended bond time helps reduce waste and keep assembly lines moving
- Portable, easy to use and requires no additional equpment

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-51111-**07832**-7	20 fl oz	13.05 oz	Clear	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

For industrial/occupational use only. Not for consumer sale or use.

Cleaners and Lubricants

3M™ Adhesive Remover

Ideal for removing adhesive residue or for surface preparation prior to use of adhesive and can be used for cleaning heavy oils, greases, silicone, tar and paraffinic materials such as Cosmoline™ and wax.

- Removes a variety of adhesives and other substances
- Non-corrosive formula is safe for most equipment
- Cleans oil, grease, tar, and grime quickly and easily to keep processes moving forward

6041 **6040**

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-21200-**49142**-9	1 gal	1 gal	Pale Yellow	4	CN

0-00-21200-**39296**-2	6.25 fl oz	5 oz	Pale Yellow	6	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Adhesive Remover – Low VOC <20%

A low-VOC version of 3M™ Adhesive Remover. Removes a variety of adhesives and other substances.

- Non-corrosive formula is safe for most equipment
- Cleans oil, grease, tar, and grime quickly and easily to keep processes moving forward
- Low VOC, <20%, aerosol is GREENGUARD Children and Schools Certified℠ , meets CARB, OTC and LADCO requirements, and helps contribute to LEED® credits

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-51111-**97974**-7	24 fl oz	18.7 oz	Clear	12	CN

Scotch® Sticker & Marker Remover 6042

A citrus base adhesive remover in the form of a pH neutral, easy-to-control pen. Used for removing adhesives, marker and crayon from walls, lockers, desks, glass, folders and more. Lifts grime and grease from garage areas or work sites.

UPC	Net Wt.	Color	Case Qty	Units
0-00-21200-**50021**-3	0.29 oz	Yellow	12	CS

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Citrus Base Cleaner

This liquid cleaner/degreaser cleans without streaking and has a fresh citrus scent.

- Contains no chlorinated or petroleum based solvents
- Removes grease, oil, ink and most adhesives without harsh chemicals or hours of soaking
- Can help prepare surfaces for adhesive bonding

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-21200-**76394**-6	24 fl oz	18.5 oz	Transparent	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ 5-Way Penetrant

A versatile, silicone-free product that lubricates, cleans, inhibits rust and corrosion, and demoisturizes.

- Helps free rusted and frozen nuts and bolts
- Excellent light duty lubricant for many delicate or precision instruments
- Ideal tapping lubricant for stainless steel and aluminum
- Displaces moisture and "dries out" electrical apparatus, generators and motors

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-21200-**21305**-2	24 fl oz	16.8 oz	Light Amber	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Silicone Lubricant

This high quality silicone lubricant works for many applications. Formulated for extreme conditions, it will not freeze at -28°F nor degrade at 350°F. Contains no petroleum oils to stain fabrics.

- Lubricates moving parts and seals out moisture
- Eliminates squeaks caused by friction
- Protects against rust and corrosion
- Prevents buildup of glues, waxes, inks and paints

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-21200-**85822**-2	24 fl oz	13.25 oz	Clear	12	CN

Not for Retail/Consumer sale or use in CA & other states. Consult local air quality rules before use.

3M™ Silicone Spray – Low VOC 60%

The same great features as 3M™ Silicone Lubricant with a low VOC formulation that is GREENGUARD Children and Schools Certified℠, meets CARB, OTC and LADCO requirements, and helps contribute to LEED® credits

- Fast drying, non-staining
- FDA listed ingredients

UPC	Size	Net Wt.	Color	Case Qty	Units
0-00-51111-**07732**-0	24 fl oz	13.4 oz	Clear	12	CN

Hot Melt Adhesives

3M™ Hot Melt Adhesive 3762

GO-TO for Packaging

An economical, fast-setting resin solid hot melt adhesive designed for general purpose applications.

- Aggressive hot tack rapidly achieves handling strength for packaging and other applications
- Medium open time allows for positioning and fit adjustment
- Securely bonds difficult to seal substrates such as lightly waxed surfaces
- Use on corrugate, paperboard cartons and POP displays

3762AE

3762Q*

UPC	Stick ID	Size	Color	Case Qty	Units
0-00-21200-**82596**-5	3762AE	1/2" x 12"	Tan	11	LB
0-00-21200-**65261**-5	3762Q*	5/8" x 8"	Tan	11	LB

* Special size designed for use with the Quadrack converter.

3M™ Hot Melt Adhesive 3792

GO-TO for Woodworking

A low-volatile-organic compound (VOC) hot melt adhesive that produces minimal odor when heated, helping to support a comfortable work environment.

- Dries clear for clean appearance
- 40-50 second open bond time allows for fit adjustment and positioning
- Excellent "Go-to" adhesive for woodworking, particle board, chipboard and cushioning foams
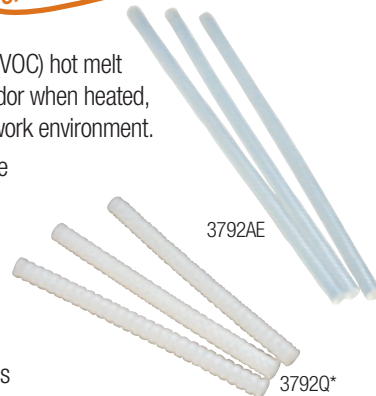

3792AE

3792Q*

UPC	Stick ID	Size	Color	Case Qty	Units
0-00-21200-**82583**-5	3792AE	1/2" x 12"	Clear	11	LB

3M™ Hot Melt Applicator AE II

It is a high volume, self-contained applicator featuring an industrial grade 250-watt PTC (positive temperature coefficient) system for a consistent 400°F (204°C) for application.

- Delivers up to 4 lbs. of adhesive per hour
- Contoured grip and wide trigger provide operator comfort and precise control
- Positive check valve nozzle helps minimize dripping
- Built-in stand helps keep applicator upright, stable and ready for use
- Designed for use with 1/2" x 12" sticks

UPC	Use with these sticks	Case Qty	Units
0-00-21200-**96594**-4	3762AE & 3792AE	5	EA*

* A general purpose tip (.090) is supplied with each applicator.

3M™ Hot Melt Applicator TC with Quadrack Converter and Palm Trigger

Unique design quickly grips the adhesive stick and smooths the melt flow.

- Delivers up to 3.5 lbs. of adhesive per hour
- Palm trigger improves operator comfort
- Quadrack converter provides positive feed-through
- Maintains a steady 385°F (196°C)
- Designed for use with 5/8" x 8" Quadrack (Q) sticks

UPC	Product #	Use with these sticks	Case Qty	Units
0-00-21200-**89445**-9	9990	3762Q & 3792Q	1	EA*

* A general purpose tip (0.093") is supplied with each applicator.

For use with AE sticks only.

For use with Quadrack "Q" sticks only.

Anaerobic Adhesives

One-component anaerobic adhesives that cure and seal threaded assemblies that meet a wide range of applications to prevent vibration loosening and/or leakage. All products provide excellent vibration, corrosion, and shock resistance.

3M™ Scotch-Weld™ Threadlocker TL22

Purple – Screwlock. For low removal torque fasteners less than a 1/4" (6 mm).

- Prevents nuts and bolts from loosening with vibration
- Fills and seals threads completely to help stop corrosion, rust and leaks
- Eliminates the need for lock washers and other locking components
- Long open time that cures quickly

UPC	Size	Color	Case Qty	Units
0-00-48011-**62601**-7	0.33 fl oz/10 mL	Purple	10	BO
0-00-48011-**62602**-4	1.69 fl oz/50 mL	Purple	10	BO

3M™ Scotch-Weld™ Threadlocker TL42

Blue – Nutlock. Provides vibration, corrosion, and shock resistance for fasteners in assembled form.

- Fills and seals threads completely to help stop corrosion, rust and leaks
- Helps maintain torque
- Removable with hand tools
- Securely holds dissimilar metals

UPC	Size	Color	Case Qty	Units
0-00-48011-**62604**-8	1 mL pipette	Blue	100	BO
0-00-48011-**62605**-5	0.33 fl oz/10 mL	Blue	10	BO
0-00-48011-**62606**-2	1.69 fl oz/50 mL	Blue	10	BO

3M™ Scotch-Weld™ Threadlocker TL43

Blue – Provides vibration, corrosion, and shock resistance for 1/4"– 3/4" (6.4-19 mm) fasteners in assembled form

- Oil tolerant formula prevents vibration and provides shock resistance
- Fills and seals threads completely to help stop corrosion, rust and leaks
- Helps maintain torque
- Removable with hand tools

UPC	Size	Color	Case Qty	Units
0-00-51115-**25138**-2	0.33 fl oz/10 mL	Blue	10	BO

Threadlockers Selection Guide

What strength do you require?

LOW → TL22

MEDIUM → Does it need to be oil tolerant?
- NO → TL42
- YES → TL43

HIGH → Are the parts pre-assembled?
- NO → Do you require high temp?
  - NO → Is the bolt size > 1"?
    - NO → TL71
    - YES → TL62
  - YES → TL77
- YES → TL72 / TL90
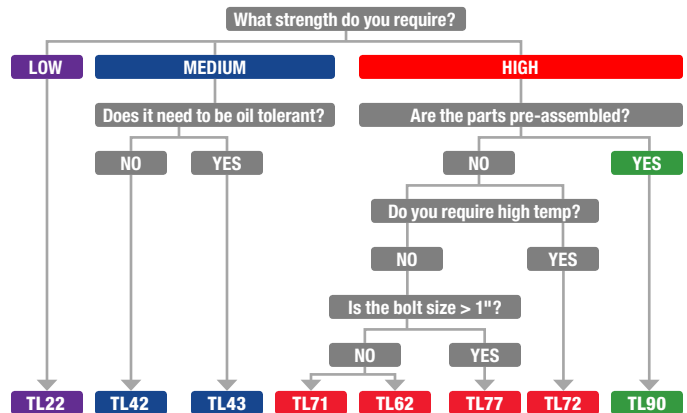

3M™ Scotch-Weld™ Threadlocker TL62

Red – Studlock. High strength with controlled torque tension.

- Long open time anaerobic adhesive that cures quickly
- Prevents nuts and bolts from loosening with vibration
- Fills and seals threads completely to help stop corrosion, rust and leaks
- Eliminates the need for lock washers and other locking components

UPC	Size	Color	Case Qty	Units
0-00-48011-**62609**-3	0.33 fl oz/10 mL	Red	10	BO
0-00-48011-**62610**-9	1.69 fl oz/50 mL	Red	10	BO

3M™ Scotch-Weld™ Threadlocker TL71

Red – Permanent studlock for bolts and studs up to 1" (25 mm).

- Prevents nuts and bolts from loosening with vibration
- Fills and seals threads completely to help stop corrosion, rust and leaks
- Eliminates the need for lock washers and other locking components
- Long open time anaerobic adhesive that cures quickly

UPC	Size	Color	Case Qty	Units
0-00-51115-**25125**-2	1 mL pipette	Red	100	BO
0-00-48011-**62612**-3	0.33 fl oz/10 mL	Red	10	BO
0-00-48011-**62613**-0	1.69 fl oz/50 mL	Red	10	BO

For industrial/occupational use only. Not for consumer sale or use.

3M™ Scotch-Weld™ Threadlocker TL72

Red – High temperature studlock with gap filling for larger diameter coarse threaded parts.

- Locks and seals bolts and studs up to 1" and under high-temperature conditions (up to 450°F)
- Fills and seals threads completely to help stop corrosion, rust and leaks
- Helps maintain torque
- High viscosity prevents dripping and migrating after assembly
- Tested Military Specification: MIL-S-46163A

UPC	Size	Color	Case Qty	Units
0-00-51115-**25133**-7	0.33 fl oz/10 mL	Red	10	BO
0-00-51115-**25137**-5	1.69 fl oz/50 mL	Red	10	BO

3M™ Scotch-Weld™ Threadlocker TL77

Red – Heavy duty, permanent for fasteners up to 1.5" (38mm) with coarse threads.

- Securely holds dissimilar and coarse metals, including up to 1-1/2 inch diameter bolts
- Permanently fills and seals threads completely to help stop corrosion, rust and leaks
- Fixture time as little as 20 minutes; fully cures in 24 hours to help reduce lengthy downtime
- Can be disassembled with localized heat

UPC	Size	Color	Case Qty	Units
0-00-51115-**25142**-9	0.33 fl oz/10 mL	Red	10	BO
0-00-51115-**25143**-6	1.69 fl oz/50 mL	Red	10	BO

3M™ Scotch-Weld™ Threadlocker TL90

Green – Penetrating adhesive for pre-assembled fasteners and porosity sealing of welds.

- Low viscosity provides wicking action that helps lock and seal small compression and ferrule fittings
- Fills and seals threads completely to help stop corrosion, rust and leaks
- Vibration and shock resistant
- Works on parts that reach a service temperature up to 400°F/204°C

UPC	Size	Color	Case Qty	Units
0-00-48011-**62615**-4	0.33 fl oz/10 mL	Green	10	BO
0-00-48011-**62616**-1	1.69 fl oz/50 mL	Green	10	BO

Instant Adhesives

3M™ Scotch-Weld™ Plastic & Rubber Instant Adhesive PR100

This low viscosity instant adhesive is formulated to give exceptional performance on difficult-to-bond substrates such as EPDM, nylon, polypropylene and polyethylene, with use of an appropriate primer.

- Fast curing to keep projects moving quickly
- Typically reaches handling strength in under 20 seconds; full cure in 24 hours
- Achieves a strong, durable and lasting bond, with overlap shear strength over 2,000 psi

Lead Product

UPC	Size	Color	Case Qty	Units
0-00-51115-**25214**-3	20 gram bottle	Clear	10	BO
0-00-51115-**25213**-6	500 gram bottle	Clear	1	BO

3M™ Scotch-Weld™ Instant Adhesive CA40H

A clear, medium viscosity instant adhesive formulated for better void filling capabilities than lower viscosity instant adhesives.

- Enables more controlled and precise application with less mess and run off
- High strength and impact resistance
- Reaches handling strength in under 40 seconds
- Achieves a strong, durable and lasting bond, with overlap shear strength over 2,000 psi

UPC	Size	Color	Case Qty	Units
0-00-21200-**21073**-0	1 fl oz bottle	Clear	12	BO

3M™ Scotch-Weld™ Super Fast Instant Adhesive SF100

A low viscosity instant adhesive with exceptional performance on difficult-to-bond plastics and rubbers, acidic and/or contaminated surfaces such as: woods, leathers, cardboard and oil surfaces.

- Super fast cure for high speed production
- Typically reaches handling strength in under 5 seconds; full cure in 24 hours
- Pinch a precise drop or squeeze for a steady bead
- Achieves a strong, durable and lasting bond, with overlap shear strength over 2,000 psi

UPC	Size	Color	Case Qty	Units
0-00-48011-**62631**-4	20 gram bottle	Clear	10	BO

For industrial/occupational use only. Not for consumer sale or use.

Solvent Based Adhesives

3M™ Nitrile High Performance Plastic Adhesive 1099

This fast drying adhesive forms a durable bond at room temperature, but also has optional heat-initiated chemical reaction to achieve even higher bond properties.

- Forms strong bonds on most vinyls and plastics
- Resists weathering, water, oil, plasticizer migration and fuels
- Provides strong, quick drying flexible bonds

Lead Product

UPC	Size	Color	Case Qty	Units
0-00-21200-**19808**-3	5 oz	Tan	36	TB

3M™ Neoprene High Performance Rubber and Gasket Adhesive 1300

A versatile, solvent based adhesive offering high immediate strength and good heat resistance.

- Adheres neoprene, SBR, butyl, and other types of rubbers to other various substrates
- Excellent moisture and heat resistance performing up to 300°F/148°C
- Can be used as a contact or wet-bond adhesive

Lead Product

UPC	Size	Color	Case Qty	Units
0-00-21200-**19868**-7	5 oz	Yellow	36	TB

3M™ Nitrile High Performance Rubber and Gasket Adhesive 847

A versatile, solvent based adhesive with comparatively low viscosity for easy application.

- High performance adhesive intended to bond gaskets
- Adheres to nitrile rubber (BUNA), neoprene, SBR, butyl, leather, vinyl and various rubbers
- Excellent fuel, oil and water resistance
- Offers resistance to heat and moisture, performing in temperatures up to 300°F/148°C

UPC	Size	Color	Case Qty	Units
0-00-21200-**19718**-5	5 oz	Brown	36	TB

3M™ Industrial Adhesive 4799

A brushable, heat resistant adhesive that develops strength rapidly providing good creep resistance.

- Bonds to rubber (including EPDM) and many materials such as canvas and linoleum to metal, wood and concrete
- Dries rapidly to a water and heat resistant bond
- Low soak-in on porous surfaces

UPC	Size	Color	Case Qty	Units
0-00-21200-**21354**-0	5 oz	Black	36	TB

Contact Adhesives

3M™ Neoprene High Performance Contact Adhesive 1357

A versatile, solvent based adhesive offering high immediate handling strength and good heat resistance.

- Adheres, sheet metals, such as stainless steel, aluminum, cold rolled steel and many plastics to numerous other substrates
- Excellent moisture and heat resistance up to 300°F (148°C)

UPC	Size	Color	Case Qty	Units
0-00-21200-**19887**-8	5 oz.	Gray-Green	36	TB

3M™ Fastbond™ Contact Adhesive 30NF

Water-based

A water-dispersed adhesive with high coverage, immediate bond strength, a long bonding range and good heat resistance.

- Bonds most foamed plastics, plastic laminate, wood, plywood, and canvas to themselves and to each other
- Creates a very high strength, high temperature resistant bond with up to a 4 hour bonding range
- Non-flammable in the wet state

Concrete Repair

3M™ Scotch-Weld™ Concrete Repair Self-Leveling 600

- Quick set formula and bubble-free liquid is low in viscosity and self-levels for ease of installation
- Dispenses with a regular caulk gun
- Ideal for minor repairs on walkways, stairways, pools, decks, patios, and general maintenance and repair

Adhesive Sealants

Protect from the elements with these flexible bonding and sealing solutions.

3M™ Polyurethane Construction Sealant 525

A single component sealant that forms the most flexible and resilient joint with excellent adhesion on most materials.

- Creates flexible seals on heavy and light precast panel expansion joints, wood, aluminum and PVC
- Cures within 24 hours under normal outside humidity; 90-minute plus skin time
- Use for heavy and light precast panel expansion joints, joinery seams and concrete roof tiles

UPC	Size	Color	Case Qty	Units
0-00-48011-**62823**-3	300mL/10.1 fl oz	Gray	12	EA

3M™ Polyurethane Sealant 540

Interior Sealing

A high performance, single-component, moisture-curing sealant that forms permanently elastic bonds.

- Fast-curing adhesive offers rapid results
- High tensile strength produces high-strength bonds
- Excellent weather resistance for long-term performance

UPC	Size	Color	Case Qty	Units
0-00-21200-**49054**-5	300mL/10.1 fl oz cartridge	White	12	EA

0-00-21200-**41595**-1	300mL/10.1 fl oz cartridge	Black	12	EA

3M™ Adhesive Sealant 740 UV

Exterior Sealing

- A single-component, elastomeric sealant that cures without isocyanates
- Seals concrete, wood, aluminum, most lacquered metals, polyester, glass, stone and ceramic
- This hybrid technology is paintable when wet and will not degrade when exposed to UV
- Low VOC, 50 minute skin time

UPC	Size	Color	Case Qty	Units
0-00-48011-**62812**-7	290 mL cartridge	White	12	EA

Marine Sealants

3M™ Marine Adhesive Sealant 5200

Permanent Bonding

A one-part polyurethane sealant formulated to chemically react with moisture in order to provide strong, flexible bonds in a marine environment.

- Provides excellent resistance to saltwater and weathering
- Tough and flexible polyurethane polymer forms strong bonds
- Bonds dissimilar materials without shrinking
- Retains strong bond during vibration, swelling, shrinking or shock
- Offers extended working time through longer cure

3M™ Marine Adhesive Sealant 5200 Fast Cure*

A one-part polyurethane formulated for applications where a fast, long-term seal is required for above or below the waterline.

Permanent Bonding 24 hour Cure

- Fast-curing adhesive sealant that is tack-free in 1 hour; cures within 24 hours
- Provides excellent resistance to saltwater and weathering
- Tough and flexible polyurethane polymer forms strong bonds
- Retains strong bonds during vibration, swelling, shrinking or shock
- Designed to bond dissimilar materials without shrinking

3M™ Marine Adhesive Sealant 4000 UV*

Exterior Bonding

A one-part adhesive sealant that cures to form a firm, rubbery and waterproof seal, making it well-suited for marine applications above or below the waterline.

- Forms very high strength seal for durability
- Excellent UV resistance for glazing applications
- Low VOC for more environmentally sustainable product
- 20 minute skin time helps keep jobs moving quickly

3M™ Manual Applicator 310M

A high-quality, manual-driven applicator designed to dispense adhesive sealants in cartridges.

- Features a 18:1 mechanical advantage
- All-metal construction for durability
- Offers fast metering, mixing and application of adhesives
- Mobile design provides convenient and portable adhesive application

UPC	Case Qty
0-00-48011-**62830**-1	1 per Case

3M™ Pneumatic Applicator 34A

A high quality pneumatic applicator designed for dispensing cartridges for 290, 295, 300, 310mL and 400mL sausage packs. 120 PSI rated.

- Variable flow control
- 3 piece telescoping piston

UPC	Case Qty

Fire Barrier Solutions

3M is proud to be the industry leader in firestopping materials. Our dedication to stringent testing and code developments help make buildings safer today than they were even 10 years ago. You can trust the 3M brand for proven reliability and outstanding service.

Fire Barrier Sealants

3M™ Fire Barrier* Sealant IC 15WB+

A one-part, gun-grade, intumescent firestop sealant that forms a monolithic seal after drying, CPVC compatible and bonds to concrete, metals, wood, plastic and cable jacketing.

- Up to 3-hour fire ratings per ASTM E 814 (UL 1479)
- Designed to help minimize sound transfer
- Water-based and paintable sealant provides easy application and clean-up
- Sag-resistant properties offer clean application as well as strong adhesion

3M™ Fire Barrier Sealant CP 25WB+*

600+ Tested & Listed Systems

Our most popular latex-based intumescent firestop sealant with more than 600 tested and listed systems. Dries to a red color, no mixing required.

- Superior adhesion – bonds to concrete, metals, wood, plastic and cable jacketing
- Extensive library of UL Classified fire protection systems
- Intumescent – expands when heated to seal around items exposed to fire
- Low VOC – meets the intent of LEED NC-EQ Credit 4.1 for Low-Emitting Materials – contains <250 g/L VOC content (less H20 and exempt solvents)

Through-Penetration Sealants

3M™ Fire Barrier Sealant FD 150+*

This halogen-free sealant is sag-resistant and has an excellent caulk rate. It dries to the touch in 30–60 minutes and can be painted.

- Acrylic latex caulk with up to 3-hour fire rating per ASTM E 814 (UL 1479)
- Up to 4-hour fire rating per ASTM E 1966 (UL 2079)
- Continuous seal remains pliable and allows for typical pipe movement
- Water-based for easy installation, cleanup and disposal
- High-solids formula means limited shrinkage

Through-Penetration Sealants (cont.)

3M™ Fire Barrier Silicone* Sealant 2000+

An elastomeric, ready-to-use, single-component, neutral-cure silicone sealant that cures upon exposure to atmospheric humidity. Forms a flexible firestop seal that also acts as a barrier to airborne sound transmission.

- Up to 3-hour fire rating per ASTM E 814 (UL 1479)
- Up to 4-hour rating for construction joint systems per ASTM E 1966 (UL 2079)
- Provides optimum adhesion to a wide variety of construction materials
- Excellent weatherability during construction

UPC	Size	Color	Case Qty	Units
0-00-51115-**11558**-5	Cartridge 10.3 fl oz	Lt Gray	12	CQ

Through-Penetration Water Tight Sealants

3M™ Fire Barrier Water Tight* Sealant 3000 WT

A high-performance, intumescent silicone firestop that also acts as a barrier to water leakage and airborne sound transmission.

- Up to 4-hour fire ratings per ASTM E 814 (UL 1479)
- Excellent weatherability – ideal for fast track construction
- Cures upon exposure to atmospheric humidity
- Fungal growth inhibited in the product per ASTM G 21
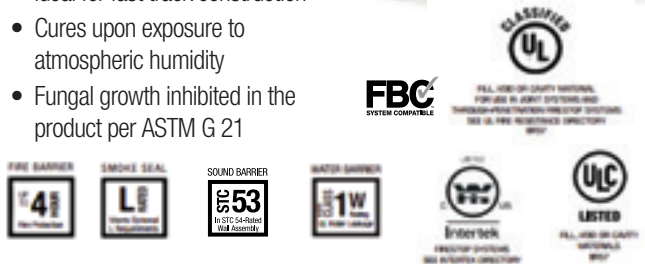

UPC	Size	Color	Case Qty	Units

Through-Penetration Devices and Kits

3M™ Fire Barrier Ultra Plastic Pipe Device

A one-piece, metal collar assembly that makes installation fast and easy.

- Firestop up to 6" non-metallic pipe in new and retrofit installations
- Up to 3-hour fire ratings per ASTM E 814 (UL 1479)
- Proven technology - Intumescent action quickly seals around the penetrating item in a fire

UPC	Prod ID	Size	Case Qty	Units
0-00-51115-**08378**-5	PPD1.5	1.5 in	10	EA
0-00-51115-**08379**-2	PPD2	2 in	10	EA

Through-Penetration Specialty Products

3M™ Fire Barrier Packing Material PM4*

An easy-to-dispense, non-asbestos, inorganic material designed to be used as an alternative packing material to mineral wool, fiberglass and backer rod.

- Convenient, hand-tear dispensing
- Excellent strength and flexibility characteristics
- Meets ASTM C 1338 Standard Test Method for determining fungi resistance of insulation materials and facings

UPC	Size	Case Qty	Units
0-00-51115-**18764**-3	1/2 in thick x 4 in wide x 20.5 ft long	5	RL

3M™ Fire Barrier Self-Locking Pillows

Self-contained firestops ideal for medium to large through penetrations. Intumescent fire-rated pillows are designed to expand during a fire, locking themselves around vital components.

- Easy to install, remove and reconfigure to help save time and labor
- No wire mesh or additional support required
- Up to 3-hour fire ratings per ASTM E 814 (UL 1479)
- Available in multiple sizes and can be cut for precise fill and compression

UPC	Prod ID	Size	Case Qty	Units

3M™ Fire Barrier Pillows

Self-contained, intumescent products designed for use in through-penetration firestops such as cable trays, conduit and blank openings.

- Up to 3-hour fire ratings per ASTM E 814 (UL 1479)
- Re-enterable and re-useable for new or retrofit installations
- Graphite-free composition does not conduct electricity
- No wire mesh required and easy to install, inspect, remove and reuse as needed
- Excellent aging properties for long-lasting durability and performance

3M™ Fire Barrier Composite Sheet CS-195+
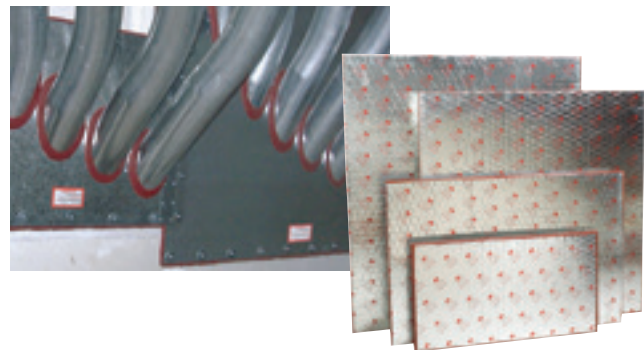

A thin, one-part composite system designed to firestop blank openings and larger penetrations such as cable trays and conduit and HVAC ductwork through rated construction.

- Up to 4-hour fire ratings per ASTM E 814
- Thermally conductive, allowing unwanted heat build-up to escape
- Re-enterable for new or retrofit installations
- Easy to install using common trade tools, cut and form to desired shape

Except as otherwise indicated (*), for industrial/occupational use only. Not for consumer sale or use.

3M™ Fire Barrier Moldable Putty Stix MP+*

A one-part, ready-to-use, re-enterable, intumescent putty that can be easily formed to firestop through penetrations and blank openings in fire-rated assemblies. Often used to fill voids in large openings and/or complex firestop systems.
- Up to 4-hours fire ratings per ASTM E 814 (UL 1479)
- Provides draft and cold smoke seal
- Helps reduce noise transfer (STC-Rating of 56 when tested in STC 56-rated wall assembly)
- Noncorrosive to metal and compatible with synthetic cable jackets
- Will not dry out or crumble, re-enterable

UPC	Size	Case Qty	Units
0-00-51115-**16526**-9	1.4 in x 11 in, Sticks	10	EA
0-00-51115-**16561**-0	1.45 in x 6 in, Sticks	12	EA

3M™ Fire Barrier Moldable Putty Pads MPP+*

A one-part firestop material used in various fire-rated assemblies, such as electrical box protection and wall openings. Ready to use in convenient, thick pads.
- Provides draft and cold smoke seal, helps reduce noise transfer
- Up to 4-hour fire ratings per ASTM E 814 (UL 1479)
- Excellent adhesion to a wide range of construction materials
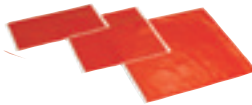

UPC	Size	Case Qty	Units
0-00-51115-**16508**-5	4 in x 8 in, Pads	10	PD
0-00-51115-**16510**-8	9.5 in x 9.5 in, Pads	20	PD

3M™ Fire Barrier Mortar*

A cost-effective, lightweight, cementitious firestop with variable mix ratios for use in through penetration applications. Excellent adhesion—bonds to concrete, metals, wood, plastic and cable jacketing.

- Up to 3-hour fire ratings per ASTM E 814 (UL 1479)
- Halogen-free formula
- Water clean up

UPC	Size	Case Qty	Units
0-00-51115-**54901**-4	5 gallon	1	PA
0-00-51115-**54900**-7	44 lb. Bag	1	BG

Except as otherwise indicated (*), for industrial/occupational use only. Not for consumer sale or use.

Fire Barrier Tapes
Fire, Water, Smoke & Sound

Another market first. This barrier tape technology offers convenience and fast installation. No tools needed, no sprayers to clean or repair, no mess, less hassle. They're tested and listed with both UL and Intertek to ASTM E2307, E1966 and E814, and they meet the International Building Code.

3M™ Fire and Water Barrier Tape*

For sealing perimeter joints (curtain wall joints) and other construction joints as well as some through-penetration applications.
- Great for water protection: meets UL Water Leakage Test, W Rating—Class requirement; passed ASTM D 6904 Rain Resistance Test.
- Up to 4-hour fire protection in construction joints; ASTM E1966/UL 2079
- Up to 3-hour fire protection in perimeter joints; ASTM E2307
- Up to 2-hour fire protection in through-penetration applications; ASTM E814/UL 1479

0-00-76308-**86902**-1	12 in x 75 ft (303 mm x 22.8m)	4	RL

3M™ Smoke and Sound Tape*

Provides a smoke and sound seal for construction joints and through-penetration in non-fire rated wall and floor assemblies, including smoke partitions and acoustic assemblies. When installed properly, this material provides a smoke seal to mitigate the spread of smoke and toxic gas as well as help reduce the transmission of sound.

Flexible Wraps

Flexible solutions for the protection of grease ducts, ventilation air ducts, return air plenums, emergency circuits, structural steel and more. These flexible wrap products make installation easy, even around corners. Ideal for use in a wide variety of commercial and industrial applications.

3M™ Fire Barrier Duct Wrap 615+

The only fire-rated duct wrap product you'll need to help protect both grease ducts and air ducts, in an easy to install format.

- Lightweight (6 lbs per cu ft) and thin (1.5" - in accordance with the tolerances in ASTM C 892) for easier application
- 2-hour fire protection
- Third-party certified to ASTM E 2336 (grease duct test standard) and ISO 6944 (air duct test standard)
- Tested and listed with UL and Intertek, meets IBC, IMC, UMC, NFPA and other key life safety codes
- Listed by California State Fire Marshal (Listing No. 2440-0941:5555)
- Supports maximum temperatures of up to 2192°F (1200°C)
- Apply in 2 layers for grease ducts, 1 layer for air ducts

3M™ Interam™ Endothermic Mat E-5A-4

Flexible mat with endothermic technology that, when exposed to high temperatures or flame, releases chemically bound water to slow heat transfer and help protect critical electrical and structural components from fire. Non-flame supporting, low-smoke evolution and fast installation make this an excellent fire barrier for structural steel and electrical circuitry.
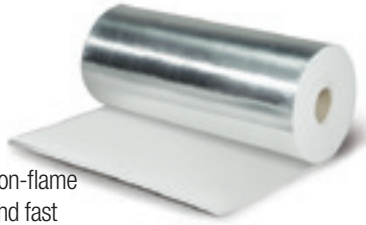

- ASTM E 84 (UL 723) Surface Burning Characteristics of Building Materials
- ASTM E 119 (UL 263) Fire Tests of Building Construction and Materials
- ASTM E 1529 (UL 1709) Determining Effects of Large Hydrocarbon Pool Fires on Structural Members and Assemblies
- ASTM E 1725 Fire Tests of Fire-Resistive Barrier Systems for Electrical System Components
- NBN 713-20/ISO TC 92 Simulated Jet-Fire Test

UPC	Size	Case Qty	Units
0-00-51115-**54913**-7	2/5 in. thick x 24.5 in wide x 20 ft long	1	RL
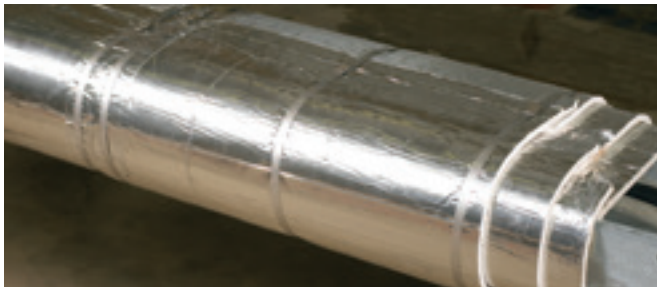

Wraps easily around existing structures. Multiple layers can be applied, allowing you to tailor the amount of fire protection required.

3M™ Aluminum Foil Tape 425
Most Versatile Aluminum Tape

Use this versatile tape to seal the cut edges on 3M™ Interam™ Endothermic Mat E-5A-4.

4.6 mil

- Thermally conductive tape helps dissipate heat and improves heating and cooling efficiency to protect temperature sensitive materials
- Resistant to chemicals to protect surfaces during de-paint process and other chemical masking operations
- Highly engineered acrylic adhesive provides long term durability
- Heat and light reflective tape protects surfaces and enhances lighting efficiency
- Withstands exposure to flame, weathering, moisture and UV
- Dead soft aluminum foil backing conforms to curved and uneven surfaces
- Recognized by UL to UL 746C and Classified by UL to UL 723, Class "L" for low flammability rating

Construction Joint Spray

3M™ FireDam™ Spray 200*

Sprayable coating is a quick and easy method for firestopping fire rated construction joints, including head-of-wall, wall-to-wall, floor-to-floor and perimeter joints.
- Up to 4-hour fire ratings for joint systems per ASTM E 1966 (UL 2079)
- Up to 2-hour fire ratings for through penetrations per ASTM E 814 (UL 1479)
- Elastomeric – forms a flexible seal with compression/extension of up to + 50% of nominal joint width
- High coverage rate reduces installation time
- Fast-drying, low-sag formula
- Applied with conventional airless spray equipment
- Paintable when cured
- Easy clean up with water

Scotch® Box Sealing Tapes

High tack. High performance.

Scotch® Box Sealing Tapes offer 3M's very best performance in packaging tapes. They are made with an abrasion-resistant, polyester backing that resists moisture and scuffing. These tapes also offer high edge-tear and split resistance.

Problem Solving Solutions

Easy unwind and high initial adhesion of Scotch® Box Sealing Tapes reduce tabbing downtime and rework.

Choosing the Best Tape for your Application

Step 1. Select Tape Backing

Scotch® and Tartan™ Box Sealing Tapes offer backing choices for specific performance properties:

Polyester
- Strongest backing
- Excellent abrasion resistance
- Moisture and chemical resistance
- Highest temperature resistance
- Transparency

Polypropylene
- Strong backing
- Good abrasion resistance
- Good conformability
- Most economical
- Transparency

Step 2. Select Tape Adhesive

With the Scotch® and Tartan™ Box Sealing Tapes you have two choices of pressure sensitive adhesive, each with a different combination of properties. Both seal cartons reliably without the mess, dwell time and equipment maintenance of hot melt adhesive.

Synthetic Rubber (Hot Melt)
- Excellent holding power
- Good initial adhesion above 40°F

Acrylic
- Excellent initial adhesion over a broad temperature range
- Extremely long performance life
- UV and chemical resistance

Initial adhesion and subsequent holding power of Scotch® Box Sealing Tapes resist popping for secure sealing throughout a supply chain.

Scotch® Box Sealing Tapes close securely without the holes, waste, appearance, sharp points and disposal of staples.

Performance levels to match your job

GO-TO Packaging Tapes

Scotch® Box Sealing Tape 371

GO-TO HOT MELT

An economical and reliable, medium duty sealing tape popular with manufacturers of food and beverages, sporting goods, piping, metal fabrications, automotive parts and furniture. Securely closes regular slotted containers (RSC) and packages used for moving, shipping and distribution.

- Rubber resin adhesive sticks quickly to a variety of materials, including fiberboard
- Tape resists nicks, abrasions, moisture and scuffing for long lasting hold
- Backing conforms around edges and rough areas for a tight seal
- Resists edge tears and splits to help keep contents secure

Scotch® High Tack Box Sealing Tape 311+

GO-TO ACRYLIC

Offers excellent performance over broad temperature ranges, specifically in colder and damper applications. Use for box sealing, splicing, recouperage and other demanding packaging applications.

- Adheres to a variety of surfaces, including corrugated boxes with over 70% recycled content
- Can be applied at freezer and refrigeration temperatures of 20°F to 50°F (-6.6°C to 10°C)
- Once applied, performs well on fiberboard boxes subjected to temperatures below 32°F (0°C)

Scotch® Box Sealing Tape 355

This tape withstands score line breaking and center seam splitting, making it ideal for use in heavy duty box and carton sealing operations.

- Extra sturdy polyester backing resists abrasion, moisture and scuffing for lasting hold
- Adhesive sticks quickly to a variety of materials, including those with high recycled content
- Securely closes double and triple walled corrugated cartons and fiberboard
- Provides high quality, consistent performance with easy unwind

Security Use Tapes

Scotch® Security Tape 3199

2.05 mil
Acrylic

Ideal for sealing packages and securing loads with high value contents. Printed with CHECK SEAL BEFORE ACCEPTING and diagonal lines.

- High adhesion and holding power to recycled paper liner and fiberboard
- Excellent cold temperature performance
- Tamper evident tape is designed to reduce product theft
- Provides easy handling and smooth dispensing in cold temperatures
- FDA approved for indirect food contact

Scotch® Security Message Box Sealing Tapes

These tapes are nearly impossible to realign once the package has been opened, helping to reduce product pilfering and keeping contents secure through the shipping process. The moisture-resistant backing defies abrasion, chemicals, and scuffing to hold strongly through rough handling. Choice of preprinted messages and tape colors.

Scotch® Box Sealing Tape Dispensers

These durable dispensers can also be used with filament tapes.

HR80
Retractable Blade

- One-hand, pistol-grip design allows for easy application
- Tack, roll, buff and tear in one fluid motion
- Plastic and metal construction creates a rugged, durable tool
- Retractable metal blade provides added safety when not in use

UPC	Max Tape Width	Case Qty	Units
0-00-51111-**91575**-2	2" (48 mm)	6	CS

HR83
Retractable Blade

- Adjustable tape brake for controlled tape tension and delivery
- High-impact plastic construction provides durability
- Retractable blade prevents accidental nicks and cuts
- Dispenses tapes up to 3" wide

UPC	Max Tape Width	Case Qty	Units
0-00-51111-**91589**-9	3" (72 mm)	6	CS

H122

- Lightweight, compact design provides maneuverability and control
- High-impact, gray plastic for durability and long-life
- Built-in brake for tight, precise package sealing

UPC	Max Tape Width	Case Qty	Units
0-00-21200-**06925**-3	2" (48 mm)	6	CS

H128

- Heavy-duty steel construction for tough work environments
- Compact, hand-held design is comfortable to use
- Provides tighter, more precise seals

UPC	Max Tape Width	Case Qty	Units
0-00-21200-**06909**-3	2" (48 mm)	6	CS

H150
Low Noise

- Operates smoothly and quietly for use in noise sensitive places
- Pistol-grip style allows easy one-hand operation
- High-impact plastic and metal is lightweight for easy handling and control

UPC	Max Tape Width	Case Qty	Units
0-00-21200-**39518**-5	2" (48 mm)	6	CS

H180

- One-hand, pistol-grip design for easy application
- Plastic and metal construction creates a rugged and durable tool
- Adjustable, hub-mounted tape brake offers control of tension and delivery

UPC	Max Tape Width	Case Qty	Units
0-00-21200-**19008**-7	2" (48 mm)	6	CS

H183

- Pistol-grip style allows easy one-hand operation
- Dispenses tapes up to 3" wide
- Adjustable tape brake allows tension control and delivery

UPC	Max Tape Width	Case Qty	Units
0-00-21200-**61850**-5	3" (72 mm)	5	CS

3M™ Shipping-Mate™ Palletizing Adhesive

It's not Sealed until it's Scotch® Sealed.

High Strength Tapes– Filament and Strapping

For Packaging and General Industrial Applications

When you need a tape as strong as your reputation, you can count on 3M's consistently reliable, market-leading high strength tapes that are engineered to meet virtually any strapping, bundling or reinforcing challenge.

Streamlined Selection for Application Success

STRONG Up to 100 lbs./in.

Bundling for Shipping and Handling

Product	Description	Tensile Strength*
8934	Glass yarn reinforced	100 lbs./in.

* ASTM Test Method D-3759

STRONGER Up to 175 lbs./in.

Bulk Bin or Skid Box Banding

Product	Description	Tensile Strength*
8959	Fiberglass reinforced - both directions	150 lbs./in.
8898	Tensilized polypropylene, bonds firmly	160 lbs./in.
8899HP	High performance, tensilized polypropylene, clean removal	170 lbs./in.
8651	Reinforced strapping tape with ideal strength and clarity for L-clip closures	175 lbs./in.

STRONGEST Up to 600 lbs./in.

Rebar Bundling

Product	Description	Tensile Strength*
898	Glass yarn reinforced, first choice for L- or U-clip closure of non-RSC boxe	380 lbs./in.
8919 MSR	Glass yarn reinforced, clean removal, MSR for oily surfaces	380 lbs./in.
890 MSR	Glass yarn reinforced, modified synthetic rubber adhesive for oily surfaces	600 lbs./in.

Tartan™ Filament Tape 8934 — GO-TO TAPE

A general purpose, fiberglass-reinforced tape with a synthetic rubber resin adhesive. Ideal for light-duty strapping, bundling and reinforcing.

- Transparency provides clear visibility of box graphics, printing and illustrations
- Resists nicks, abrasions, moisture and scuffing

4.0 mil

Filament Tape Dispensers

Scotch® Filament Tape Dispenser H10

- Constructed of high-impact, lightweight plastic
- Carbon steel blade is recessed for added safety
- For tapes width from ½ in. to 1 in. (12 mm to 24 mm)

UPC	Size	Case Qty	Units
0-00-21200-**06910**-9	1 in. (24 mm)	6	EA

Scotch® Filament Tape Dispenser H12
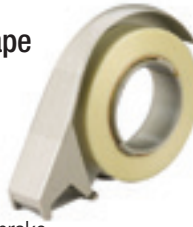

- High-impact, durable plastic construction
- Thumb control provides easy operation of hand brake
- Recessed carbon steel blade
- For tapes width from ½ in. to 1 in. (12 mm to 24 mm)

UPC	Size	Case Qty	Units
0-00-21200-**06953**-6	1 in. (24 mm)	6	EA

Scotch® Filament Tape Dispenser H121

- Metal construction withstands rugged environments
- Thumb control provides easy operation of hand brake
- Recessed carbon steel blade
- For tapes width from ¼ in. to 1 in. (6 mm to 24 mm)

UPC	Size	Case Qty	Units
0-00-51111-**97744**-6	1 in. (24 mm)	6	EA

Stretchable Tape

Scotch® Stretchable Tape 8884

A specialty-performance, transparent stretchable tape designed to contain A- and B-type pallets for internal and external shipping.

- Unique tape construction stretches 650% maximizing the number of applications when applied with automated equipment
- Provides extremely good pallet stability
- Elastic memory tightly bundles loads during shipment
- Rubber resin adhesive does not tear labels or graphics when removed after shipping

Light Duty Packaging Tapes

At-a-glance Reference

Product	Backing Material	Typical Use	Comments
600	UPVC	L-Clip closure, attaching, tabbing and holding	Excellent handling, high clarity and long aging
605	Polypropylene	Cold temperature packaging	Cold temperature applications; Complies to FDA Regulations for indirect food contact
610	Cellophane	Splicing	High heat applications up to 300°F

Product	Backing Material	Typical Use	Comments
660	Cellophane	Splicing and easy detection	High heat applications up to 300°F; High adhesion
690	UPVC	Color coding	Resists moisture and chemicals; Heat shrinkable
5910	Polypropylene	Utility grade for light duty packaging applications	Conforms easily

Scotch® Light Duty Packaging Tape 600 Clear High Clarity

GO-TO TAPE

A highly transparent tape with excellent visual properties.

- Acrylic adhesive offers moisture and chemical resistance
- Non-staining and sunlight resistant
- Good resistance to edge tear and breakage
- Removes cleanly from fabric without leaving residue

2.3 mil

Tabletop Dispensers

Scotch® Mainline Dispenser P56W

Holds multiple rolls tape up to 6" in total width, eliminating multiple dispensers in one area.

- Saves time and increases efficiency in high-volume work areas
- Weighted, rubber base for scratch-free stability
- Dispenses film backed, filament enforced and general tapes
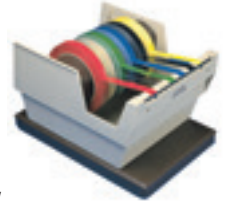

UPC	Case Qty	Units
0-00-51131-**06965**-7	1	EA

Scotch® Definite Length Dispenser M96

Saves tape by dispensing only the length needed—ideal for high volume and rapid carton closure applications.

- Weighted base ensures dispenser remains in a fixed position, yet remains portable for easy relocation
- Durable high-impact construction will stand up to years of use
- Handles tape up to 1" (24 mm) wide on a 3" core
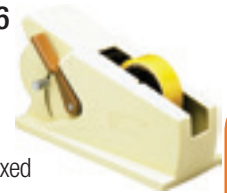

UPC	Case Qty	Units
0-00-21200-**13463**-0	6	EA

Scotch® Definite Length Dispenser M920

Adjusts to dispense predetermined lengths of ½" to 4" tape with the push of a lever—just the right amount with no waste or worry.

- For applications where repeated and frequent taping is required
- Weighted base for easy one-hand dispensing
- Handles tape up to 1" (24 mm) wide on a 3" core

UPC	Case Qty	Units
0-00-21200-**11093**-1	6	EA

Packaging Solutions

3M™ Packing List Envelopes

Wide Variety of Choices for Document Control and Protection

- Convenient peel-and-stick document protection
- Non-printed and printed with standard messages
- Custom sizes and/or custom printed messages
- Reclosable 3M™ Zipper Closure Envelope is available in two sizes
- Polyethylene backing/synthetic rubber adhesive/paper liner
- Backing thickness: 2.0 mil; Total thickness: 5.0 mil

Easy Inspection — For cross border shipping and other inspection situations, zipper closure envelopes open easily and close securely. Tough construction resists moisture and abrasion.

Secure Adhesion — High tack pressure sensitive adhesive on the back of the envelope grabs on contact and holds securely even to curved and flexible surfaces.

Scotch® Pouch Tapes

Fast, Easy plus Reduces Waste

- "Trap it" with unique 3M tape construction — strong adhesive tape area on the edges frame the large, clear non-tack center
- Attach documents, packing lists, invoices, literature, catalogs, brochures, or even product samples, small part packets or other merchandise
- Polypropylene backing/synthetic rubber adhesive sticks well to corrugate and many other substrates
- Low profile design reduces label sheer off in transit

On a roll for the greatest time savings

Improve throughput by up to 40% by pairing Scotch® Pouch Tape with companion dispensers M797 or M727.

Scotch® RCT Pouch Tapes

10X Stickier

NEW Adhesive Technology

The proprietary adhesive on these tapes is 10x stickier than other solutions—designed specifically for hard-to-stick-to surfaces, keeping documents secure from starting point to the finish. And there are no tricky liners to remove—applies fast and reduces clutter in work areas.

- For great times savings, choose the tape on a roll – Tape 824RCT
- For portability and pre-cut convenience, choose the padded format – Tape 830RCT

Masking Made Simple

Now it's easy to choose the best tape to get industrial jobs done right. This simplified 5-tape system is built on increasing levels of performance and the common goal of helping you *finish jobs worth finishing*.

3M™ Value Masking Tape	**3M™ General Use Masking Tape**	**3M™ Performance Yellow Masking Tape**	**3M™ High Performance Green Masking Tape**	**3M™ Specialty High Temperature Purple Masking Tape**
101+	**201+**	**301+**	**401+**	**501+**
The basic tape for basic jobs	The tough tape for everyday jobs	The dependable choice for industrial performance	Industrial strength with clean removal	The highest degree of industrial performance
Marking, temporary holding, wrapping and sealing.	Bundling, labeling and identifying.	Paint masking, marking, color coding and sealing.	Ideal for two-tone paint applications on vehicles.	Super-sharp paint lines for high temperature masking jobs.

3M™ Value Masking Tape 101+

A cost-effective crepe paper tape that holds, bundles, seals and performs other non-critical taping jobs where a pressure-sensitive tape is needed.

- Cost-effective solution for indoor light-duty applications
- Crepe paper backing provides easy tearing
- Provides conformability on irregular surfaces and around corners
- Hand tearable and sliver resistance with one-piece removal for easy use
- Ideal for marking, temporary holding, wrapping and sealing

Scotch® Fine Line Masking Tapes

Scotch® Ultimate Paint Edge Masking Tape 2460

Features a unique acrylic adhesive technology for good, instant adhesion that is temperature-resistant and capable of withstanding paint bake operations of up to 300°F (149°C) for up to 30 minutes.

- Peels off cleanly, without leaving adhesive residue
- Ultra-thin backing provides a low paint ridge for sharp, smooth paint lines
- Adhesive maintains good holding power that resists lifting and curling
- Acrylic adhesive provides UV resistance, which allows outdoor use for up to 21 days with clean removal from most surfaces
- Solvent and moisture resistance prevents paint bleed-through

3M™ High Performance Flatback Tape 2519

Competitively Priced

A high-performance, general purpose tape ideal for splicing liner boards, as well as bundling and packaging applications where adhesion to paper products is necessary. This thick, 7.1 mil tape features a strong kraft paper backing capable of resisting moisture and high temperatures, and can be torn by hand for fast application.

7.1 mil
47 lb/in (N/100 mm)
Tensil strength

• Proven excellent for general purpose splicing at temperatures as high as 200°F (93°C)

• Offers quick and efficient roll starting and roll closure

• Thick backing can be torn by hand, yet is suitable for machine dispensing

• Natural rubber adhesive offers excellent tack and holding power

• Provides good moisture resistance

Duct Tapes. Simplified.

Three tapes that handle 90% of your projects.

3M™ All Purpose Duct Tape DT8

Conformable with instant bond

The most stretchable of 3M's duct tapes. Its unique design offers high instant adhesion coupled with maximum conformability.

- Great for contoured surfaces and quick labeling
- Tightly woven scrim with high tensile strength for light-duty bundling
- Use for poly abatement, quick repairs, and fast attachments

8.0 mil
Tensil strength:
31 lb/in (N/100 mm)

* 0-00-76308-**98118**-1	Ind. Wrapped	48 mm x 54.8 m	Silver	24	RL

3M™ Heavy Duty Duct Tape DT11

GO-TO TAPE

Versatility with holding power

High holding power with a broad attribute performance for demanding jobs.

- Sticks immediately and stays on irregular surfaces without lifting—even on plastics
- Polyethylene, water-resistant backing resists wear and light abrasion—great for securing temporary floor coverings
- Long-lasting, moisture-resistant seal in many containment situations, such as attaching heavy poly draping and pipe sealing

11.0 mil
Tensil strength:
35 lb/in (N/100 mm)

UPC	Packaging	Size	Color	Case Qty	Units

3M™ Super Duty Duct Tape DT17

Super thick for super tough jobs

Ultra-thick, water-resistant backing resists wear and abrasion yet tears easily by hand.

- Aggressive, natural rubber adhesive grips instantly to a variety of surfaces including metal, glass, plastic and sealed concrete
- Excellent for repairing, seaming and protecting metal parts and surfaces
- Maximum strength for the most demanding applications

17.0 mil
Tensil strength:
41 lb/in (N/100 mm)

Tape Solutions

3M DT Series Duct Tapes. Right Performance. Right Price.

Except as otherwise indicated (*), for industrial/occupational use only. Not for consumer sale or use.

Duct Tapes (cont.)
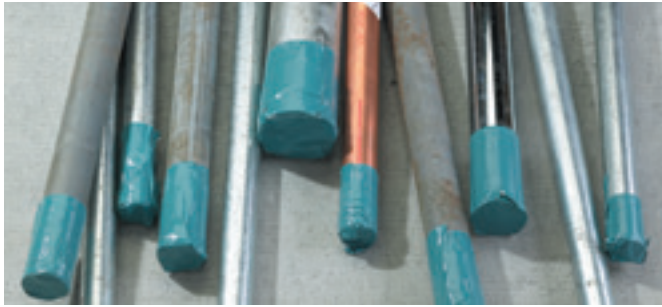

Clean Removal

3M™ Performance Plus Duct Tape 8979

Up to 6 mo. Clean Removal

Designed for both permanent and temporary applications indoor and outdoor. It is removable with little or no adhesive residue from most opaque surfaces up to 6 months after application.

12.1 mil
Tensil strength:
36 lb/in (N/100 mm)

- Resists UV, sunlight, and weather—stays on up to one year without deterioration
- Special adhesive sticks immediately and reliably to most surfaces
- Protects against light abrasion including overspray from bead blasting, sand blasting and shot peening
- Good choice for hanging polyethylene drapes for containment activities
- Protects against grime, UV and weather, then removes cleanly

UPC	Packaging	Size	Color	Case Qty	Units
* 0-00-48011-**53918**-8	Ind. Wrapped	48 mm x 54.8 m	Black	24	RL

3M™ Outdoor Masking Poly Tape 5903

Comprised of a UV and weather-resistant polyethylene film and a durable synthetic rubber adhesive.

7.5 mil
Tensil strength:
21 lb/in (N/100 mm)

- Tears off the roll by hand for easy application
- Moisture and weather resistant for durability in outdoor applications
- Red color provides clear visibility for easy application, adjustment and removal
- Clean removal for up to 30 days outdoors preserves quality and aesthetics of finished work

UPC	Packaging	Size	Color	Case Qty	Units
* 0-00-51115-**31842**-9	Ind. Wrapped	48 mm x 54.8 m	Red	24	RL

Professional Grade

3M™ Multi-Purpose Duct Tape 3900

Our general purpose, low-profile, industrial-strength duct tape. Its aggressive, natural rubber adhesive provides instant adhesion to a wide variety of surfaces.

7.6 mil
Tensil strength:
28 lb/in (N/100 mm)

- Polyethylene backing resists moisture, prolonging the tape bond in moist and humid environments
- Cloth scrim tears straight in both directions for easy handling and application
- Conformable tape works well on curved and irregular surfaces
- Withstands temperatures up to 200°F (93°C) for up to 30 minutes

UPC	Packaging	Size	Color	Case Qty	Units
* 0-00-21200-**49833**-6	Ind. Wrapped	48 mm x 54.8 m	Black	24	RL

* 0-00-21200-**49828**-2	Ind. Wrapped	48 mm x 54.8 m	Yellow	24	RL

3M™ Heavy Duty Duct Tape 3939

Has the tensile strength and adhesion for splicing, masking, patching, seaming, hanging poly sheeting, sealing PVC pipes, covering trip hazards and a host of other industrial applications.

8.6 mil
Tensil strength:
25 lb/in (N/100 mm)

- High tensile strength for a secure hold under stress
- Thick rubber adhesive bonds to most rough and smooth surfaces for a tight seal
- Silver polyethylene surface resists wear, abrasion and water
- Removes cleanly for up to 3 months when applied indoors

UPC	Packaging	Size	Color	Case Qty	Units
* 0-00-51131-**06975**-6	Ind. Wrapped	48 mm x 54.8 m	Silver	24	RL

0-00-21200-**85563**-4	Bulk	96 mm x 54.8 m	Silver	12	RL

Except as otherwise indicated (*),
for industrial/occupational use only. Not for consumer sale or use.

3M™ Extra Heavy Duty Duct Tape 6969

This industrial strength tape is ideal for heavy bundling, joining and sealing.

- Aggressive rubber adhesive provides a strong bond and clean removal, even on rough surfaces
- Water-resistant polyethylene backing seals out moisture; resists abrasion and wear
- Thick tape handles easily and tears cleanly and evenly without splintering
- Meets burn test requirements for UL 723, ASTM E-84, NFPA 255, UBC 8-1

10.0 mil
Tensil strength:
34 lb/in (N/100 mm)

Utility Grade

3M™ Vinyl Duct Tape 3903

This tape is ideal for temporary repairs, identification, contrast, securing wiring, bundling, sealing, holding and protecting.

6.5 mil
Tensil strength:
12.6 lb/in (N/100 mm)

- Embossed vinyl backing seals out dust, dirt, and moisture, and resists abrasion and many chemicals
- Peels off cleanly after 30 minutes on painted steel as hot as 200ºF (93ºC)
- Easy to tear and conforms to irregular surfaces
- Available in 7 colors for coding, process tagging, highlighting trip hazards, and enhancing decor

3M™ General Use Duct Tape 2929

An economical tape designed for general, everyday duties where strength and moisture resistance are necessary.

5.5 mil
Tensil strength:
19 lb/in (N/100 mm)

- Great for applications requiring a thin tape, such as wiring
- Removes cleanly for up to three months when applied indoors
- Water-resistant backing resists wear and light abrasion

UPC	Packaging	Size	Color	Case Qty	Units
* 0-00-51115-**24883**-2	Ind. Wrapped	1.88 in x 50 yd	Silver	24	RL

3M™ Value Duct Tape 1900

For light-duty sealing, bundling, marking and temporary repairs in non-critical applications.

- Synthetic rubber adhesive sticks on contact to metal, glass, plastic, concrete and other surfaces
- Water-resistant polyethylene coating seals well in moist and humid environments
- Its surface readily accepts writing with markers for temporary labeling

5.8 mil
Tensil strength:
19 lb/in (N/100 mm)

3M™ Aluminum Foil Tape 425

GO-TO TAPE

Most Versatile Aluminum Tape

Comprised of a dead soft aluminum foil backing and coated with a highly engineered pressure sensitive acrylic adhesive. Ideal for heat shielding, heat reflecting, chemical masking, light enhancement, chemical milling, seaming, sealing and de-paint operations.

4.6 mil

- Thermally conductive tape helps dissipate heat and improves heating and cooling efficiency to protect temperature sensitive materials
- Acrylic adhesive provides long term durability, but removes cleanly after harsh masking applications
- Withstands exposure to flame, weathering, moisture and UV
- Recognized by UL to UL746C and Classified by UL to UL723, Class "L" for low flammability rating

CLASSIFIED UL 746C

3M™ Construction Seaming Tape 8087CW

Seaming Batted Insulation

Acrylic adhesive adheres on contact to housewrap, insulated sheathing, vapor barrier film and unfinished wood. Red color provides contrast for quick visual inspection.

- Excellent cold temperature adhesion in temperatures as low as 14°F (-10°C)
- UV resistant film helps protect against degradation by sunlight
- Conformable backing adheres to curved and irregular surfaces
- Low moisture vapor transmission rate does not compromise performance of vapor barriers

3M™ Marking and Safety Tape 471

GO-TO TAPE

Solve a variety of challenges, including floor and safety marking, color coding and industrial applications with this durable tape designed to resist wear, scrapes and moisture. Unique stretch properties enable tape to remain stretched to conform to uneven surfaces without lifting and retracting. One-piece, clean removal from many surfaces helps reduce clean-up and labor costs.

OSHA Regulations Color Guide

The colors and applications shown here comply with OSHA (Specification 1910-144, and are recommended by the American National Standards Institute, Inc. (Color scheme from booklets ANSI Z53.1-1979 and ANSI A13.1-1981)

Lane Marking
Black/white or black/yellow diagonal striped, and black and yellow solid colored tapes are the basic colors for lane marking.

Fire Safety
Red immediately identifies fire protection equipment and apparatus, including fire alarm boxes, fire blanket boxes, fire extinguishers, and emergency stop bars, buttons and switches.

Physical Hazards
Yellow or yellow/black stripes is used for marking physical hazards, such as low pipes, beams, handrails, pillars, posts and fixtures that extend into work areas. Yellow is also used to warn against using equipment under repair.

Danger
Orange identifies dangerous machine and equipment parts that may cause serious injury. Orange should be used to mark hazardous parts that are exposed when enclosure doors are open or guards are removed.

Safety/First Aid
Green designates safety and first-aid equipment, such as air tanks, eye washes and first-aid kits.

Except as otherwise indicated (*),

Adhesive Transfer Tapes

Neat, Precise Application and High Performance

3M™ Adhesive Transfer Tapes are rolls of pressure sensitive adhesive pre-applied to a special release line. For application, the tape is simply pressed, adhesive side down, to a surface and the liner is peeled off.

3M™ Adhesive Transfer Tape 950

GO-TO TAPE

Offers high strength 300 acrylic adhesive on a 3.5 mil, 60 lb densified kraft liner.

- Excellent for high tack, thin applications
- Attaches similar and dissimilar materials
- Bonds high and low surface energy plastics, textured plastics, foams, fabrics and coated papers
- Good UV and chemical resistance

3M™ Adhesive Transfer Tape 927

Features high strength 300 acrylic adhesive on a 2.0 mil, 60 lb densified kraft liner.

- Use to attach gaskets and a variety of industrial foam materials
- High bond strength at elevated temperatures
- Bonds high and low surface energy plastics, metal or plastic nameplates
- Good UV and chemical resistance

3M™ Dual Lock™ Reclosable Fasteners

Super strength. Ultimate ease.

Durable enough to last through repeated opening and closing. Unique mushroom shaped heads snap shut and stay locked.

- Durable — up to 1,000 openings and closings before losing 50% of original tensile strength
- Helps reduce vibration
- Temperature, moisture and UV resistant
- Pressure-sensitive adhesive easily forms a powerful bond
- Interlocking mushroom-shaped heads have 5x the tensile strength of hook-and-loop products

Interlocking Stems

Adhesive

Release Liner

General Industrial Applications

- Hold access panels to manufacturing equipment, control panels, HVAC units, electrical enclosures, electronic equipment, and elevators
- Attach moveable sensors, acoustic control panels to sound containment enclosure
- Attach interior signage and placards with easy removability
- Hold remote controls on equipment for storage when not in use
- Hang tools on maintenance carts for ready access and secure transport
- Attach plastic and screen enclosure panels around automated equipment in temporary manufacturing cells
- Fasten rigid or flexible solar panels

Convenient Packaging

Mini-Pack (MP) carton simplifies storage and dispensing. Holds two rolls.

Trial Bag size (TB) includes a 1" x 10' mated strip of Dual Lock Fastener.

3M™ Dual Lock™ Reclosable Fastener
SJ3540, TB3540

This product is for use with many plastics (acrylic, polycarbonate and ABS), powder coated paints and low surface energy materials (polypropylene and polyethylene).

- Rubber based adhesive offers high initial adhesion upon contact
- Temperature resistance of up to 120°F (49°C), for indoor use only
- 250 stems per square inch with a 0.23 inch engaged thickness

3M™ Dual Lock™ Reclosable Fastener
SJ3550

Uses an acrylic adhesive that bonds well to a variety of medium-high surface energy materials, including some plastics, metal, glass, and painted surfaces.

- The adhesive sticks quickly and reaches full strength after 72 hours
- Can use at temperatures ranging from -20°F to 200°F (-29°C to 93°C)

3M™ Hook and Loop

Hooks on One Side, Loops on the Other for Secure, Repeated Closures

As simple as pressing together and pulling apart. Tiny, stiff hooks mesh with pliable loops for quick secure fastening.

- Reliable PSA holds on contact with a variety of materials
- Up to 5,000 closures for standard Hook and Loop

3M™ Hook and Loop Fastener MP3526/MP3527

Consists of flexible J-shaped nylon hooks and woven loops which engage each other to form a quick attachment. Offers an alternative to zippers, screws, snaps and hooks, bolts and more. Rubber adhesive allows for attachment to low surface energy substrates. Use for:

- Securing fabric to furniture cushions
- Carpet panel attachments
- Graphic attachment
- Panel attachment

Mini Packs are great for design development and small volume product requirements.

3M™ Hook and Loop Fastener SJ3526N/SJ3527N

Our high performance PSA nylon hook and loop fasteners are coated on the backside with a high performance rubber based pressure sensitive adhesive. The adhesive is ideal for indoor use and bonds well to paper and cardboard, paint, bare and painted metal, glass, sealed wood, and many plastics, making these fasteners easily and conveniently attached to a variety of substrates.

- High performance rubber based adhesive sticks instantly to a variety of indoor substrates
- Woven nylon is durable for thousands of closures
- Fast, convenient means to create refastenable seams, joints and other closures

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Disclaimer: 3M industrial and occupational products are intended, labeled, and packaged for sale to trained industrial and occupational customers for workplace use. Unless specifically stated otherwise on the applicable product packaging or literature, these products are not intended, labeled, or packaged for sale to or use by consumers (e.g., for home, personal, primary or secondary school, recreational/sporting, or other uses not described in the applicable product packaging or literature), and must be selected and used in compliance with application health and safety standards (e.g., U.S. OSHA), as well as all product literature, user instructions, warnings, and limitations. Misuse of 3M industrial and occupational products may result in injury, sickness, or death. For help with product selection and use, consult you on-site safety professionally, industrial hygienist, or other subject matter expert. For additional product information, visit www.3M.com.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
