

AF 973

1 MILLIMETER COMMON HOLES, 1/16"

Series Overview
The AF 973 series is a family of precision-machined aluminum components designed for high-performance applications. It features a standard 1 millimeter hole size and a 1/16 inch diameter. The series includes various configurations to meet specific design requirements.

Key Features
• Precision-machined aluminum construction
• Standard 1 millimeter hole size
• 1/16 inch diameter
• High-strength material
• Excellent surface finish
• Wide range of configurations

Applications
The AF 973 series is commonly used in aerospace, defense, and industrial applications where high precision and reliability are critical.

Material
The AF 973 series is made from high-quality aluminum, providing excellent strength and corrosion resistance.

Dimensions
The AF 973 series components are available in various sizes and configurations. The standard hole size is 1 millimeter, and the diameter is 1/16 inch.

Availability
The AF 973 series is available in stock and can be ordered through our website or by contacting our sales department.

Table with 3 columns: Part Number, Hole Size, and Diameter.

Part Number	Hole Size	Diameter
AF 973-01	1.00 mm	0.0625 in
AF 973-02	1.00 mm	0.0625 in
AF 973-03	1.00 mm	0.0625 in
AF 973-04	1.00 mm	0.0625 in
AF 973-05	1.00 mm	0.0625 in
AF 973-06	1.00 mm	0.0625 in
AF 973-07	1.00 mm	0.0625 in
AF 973-08	1.00 mm	0.0625 in
AF 973-09	1.00 mm	0.0625 in
AF 973-10	1.00 mm	0.0625 in
