CT Series 16 SEER Central Air Conditioner

Continental's CT Series 16 SEER Air Conditioners are made with the highest quality designs. Engineered to be whisper quiet with a natural grey color, they will compliment any outdoor living space as they maintain indoor temperatures, keeping your home cool and dehumidified throughout the warmer seasons.

Competitive Advantages

- WHISPER QUIET™ Operation
- Highest quality filter drier in the industry
- Motor assembly is removable from top of unit for fast and easy servicing
- Made with environmentally conscious, chlorine-free refrigerant R-410A which reduces power consumption and increases the durability of your compressor
- Service valves and refrigerant connections are located outside the cabinet for easy accessibility and servicing
- Electrical connections are easily accessible through a removable service panel

Features and Benefits

- 18,800 to 53,500 BTU's
- 16 SEER Efficiency
- 1.5 to 5 Tons
- Advanced Coil Technology
- Industry Leading Compressor

Quality Filter

Continental air conditioners use industry leading filter driers which work to remove unwanted acids, dirt, particle debris and other contaminants from the refrigerant and are measurably superior to any other filter on the market.

Swept Fan Blade TECHNOLOGY

Continental air conditioners are made with modern fan blade technology. The unique swept shape of the blades make Continental air conditioners quiet as they efficiently provide increased air flow. With quality and longevity in mind, Continental's swept fan blades are made with a plated steel hub and aluminum blades for long lasting durability.
