HOW TO MEASURE

Take all measurements over undergarments using standard measuring tape held in a relaxed straight line.

Chest: Place measuring tape under the arms to measure the distance around the shoulder blades and the fullest part of the bust/chest. Do not hold the tape too tight.

Waist: Place measuring tape around the natural waistline.

Low Hip: Stand with feet a few inches apart and measure around the fullest part of your hips wearing your undergarments.

Inseam: Measure from the crotch to the desired length of the pant, breaking at the top of the shoe and just above the heel in the back. Appropriate shoes should be worn.

ANTIMICROBIAL
FABRIC
PROPERTIES

Reduce mold and mildew on fabric

Decrease odors

Keep you fresh for hours

WE'VE GOT YOU COVERED

Barco's revolutionary antimicrobial scrub brands are made from fabric treated with antimicrobial properties that reduce, inhibit and minimize the growth of odor-causing bacteria on intimate contact apparel.

how the technology works

Barco uses a mineral ion based protective finish RUCO®-BAC ZPY*. The mineral ions adhere to textile surfaces and disrupt the growth of odor-causing bacteria on the fabric. When undesirable odor-causing bacteria come into contact with the RUCO®-BAC ZPY* finish, the fabric is protected against odor-causing buildup.

the broad-spectrum antimicrobial

Mineral-based additives are broad-spectrum antimicrobials. This means they are effective in adding another level of antimicrobial defense in the fight against mold and mildew on textiles.

Bio-safe minerals are non-toxic to human cells, but toxic to bacteria. The protective properties found in RUCO®-BAC ZPY* interrupt the bacterial food chain and inhibit the cell division of odor-causing microorganisms on textile surfaces.

benefits

Healthcare professionals are exposed to bacteria on a daily basis. Barco's cutting edge fabric finish* promotes the following:

- Reduction of mold and mildew growth on fabric
- Protection against unpleasant odor build-up
- Freshness for hours

RUCO®-BAC ZPY

*Especially suitable for intimate contact textiles, RUCO®-BAC ZPY is a wash-resistant antimicrobial protective finish for all fiber types.

- Provides fungicidal and bactericidal properties for protective textile finishes
- Interrupts the food chain of microorganisms
- EPA-registration (EPA = Environmental Protection Agency, USA)
- Registered on the Oeko-Tex list
- Bluesign®-approved

Barco's Nightingales celebrates
MeiLani Renger
RN, CCRN

Through the past year, the pandemic has affected all of us with concerns of our own health as well as our friends and families. Nurses and healthcare workers have the same concerns and it is doubled with the caring of all of us.

MeiLani Renger, RN, CCRN from UCLA Ronald Reagan Medical Center Unit 6ICU Neuro-Surgical/Trauma Unit shared with us about her special unit and how above and beyond they go for their patients and each other.

From helping them with Zoom with their families, bedazzling the helmets some patients have to wear, to visiting them when their families can't, bringing them homemade goodies, nurses like MeiLani overwhelm us with their care and bravery. They also encourage each other and look out for each other. She has made posters thanking and encouraging other COVID units and purchased waterproof stickers to put on their U-shields like, "Nothing is impossible". Unit 6ICU awards each month, a nurse that goes above and beyond.

MeiLani is one of our BNF Nurse Heroes winners. You can read her full story on our website.

Thank you to the nurses and all healthcare workers. You are our heroes. We can only aspire to be like you.
