

High Strength Pressure Bandage

Tourniquet

Instructions for use

Designed for a fast response to severe bleeding and trauma situations, the **High Strength Pressure Bandage (tourniquet)** combines a thick non-adherent dressing, elastic bandage, pressure applicator and closure clip in one simple, sterile unit. The bandage is also a tourniquet that gives you an effective wound dressing that is quick and easy to apply without the need for tape, safety pins or other bandages.

- Store in a cool, dry place, out of direct sunlight.
- Do not use if packaging is open or damaged.
