# POM POM PICTURES

## A NOTE TO PARENTS

This craft is a great way for young children to practice their fine motor skills, color & size recognition. Depending on the age and ability of your child, they may need a little help along the way.

**DEVELOPS**  
fine motor skills

**TEACHES**  
colors & sizes

**PROMOTES**  
sensory development

## SET UP

Peel & stick wiggly eyes onto felt.

Turn over and insert the yarn\* through the small hanging holes.

*\*Cut off any frayed ends before inserting through holes if needed.*

Tie in a knot or bow at the desired length.

**NOTE TO PARENTS:** Younger children will need help tying and hanging.

**PRO-TIP:** The foam will hold the pom poms in place. If any fall out, just push them back in.

Try changing the pom pom colors as desired. Once you like your picture its time to hang and display.

Repeat steps with the remaining 2 pictures.

## ADD POM POMS

Choose 1 felt picture and place on table, picture side up.

Match pom pom sizes and colors with the holes on the picture.

Gently push pom poms into the holes.

For extra playtime creativity, turn the pictures over to the white background. Use the pom poms to make your own colorful patterns and designs

Extra materials can be saved to touch up or change your designs.
