

OXYGEN REGULATORS

Dynarex Resp-O₂™ Oxygen Flow Regulators are designed to safely and efficiently administer and regulate the flow of oxygen to respiratory patients at adjustable flow-rate levels. The Oxygen Regulator features an anodized aluminum body with a brass core and brass-encased component parts for optimal safety and reliability. Some select models feature all-brass construction.

- Single-selector knob allows for effortless adjustment
- Features easy-to-read flow-rate dial
- Brass core construction provides increased safety and reliability
- 36350-36353: Comply to CGA 870 standard
- 36370-36374: Comply to CGA 540 standard
- Not made with natural rubber latex or DEHP
