

Handicap Access

Handicap Access is a feature that allows you to use your car's navigation system while you are in a wheelchair. This feature is available on all models with the navigation system. To use Handicap Access, you must first activate it in the navigation system. Once activated, the system will provide you with the most accessible routes to your destination. Handicap Access also provides you with information about the accessibility of the roads and the destinations you are visiting. For more information, please contact your local dealer.

Navigation System

The navigation system provides you with turn-by-turn directions to your destination. It also provides you with information about the traffic conditions on the roads you are traveling on. The navigation system is available on all models with the navigation system. To use the navigation system, you must first activate it in the navigation system. Once activated, the system will provide you with the most efficient routes to your destination. For more information, please contact your local dealer.

drive

www.drive.com

A large, vertical blue graphic with the word "drive" written in white, lowercase letters. The letters are stacked vertically, with "d" at the top and "e" at the bottom. The background is a solid dark blue color.
