

GAS & SPECIALTY SENSORS

CO₂, HUMIDITY & TEMPERATURE TRANSMITTER T8000 SERIES

DESCRIPTION

The Telsaire/Amphenol Advanced Sensors T8000 Series Ventostat CO₂/RH/Temperature Transmitter is the next generation CO₂ sensors from GE Sensing. Each Ventostat comes with a passive 10kΩ Type II thermistor and has simultaneously active voltage and current outputs for CO₂ measurement. The T8100 and T8300 features reliable automatic calibration using patented Telsaire ABC logic that will ensure accurate and stable calibration for the lifetime of the sensor. The T8200 offers an accurate solution for hospitals and other full time operational 24 hours a day facilities. Both the T8100 and the T8200 are available with optional and selectable analog humidity and temperature outputs. The T8300 offers all of the accuracy of the T8100 but utilizes a pitot tube kit for measuring duct levels of CO₂.

T8100-D

FEATURES

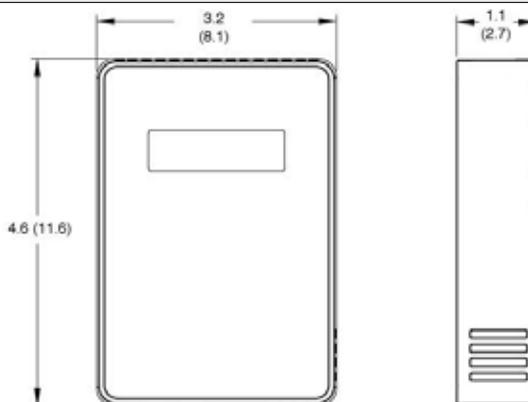

- Simultaneous voltage and current outputs for CO₂
- Maintenance free lifetime self-calibration
- Passive temperature output
- Non-dispersive infrared sensor
- Ideal for 24 hours per day facilities (T8200)
- Optional display available
- Optional active temperature and humidity outputs
- Relay and Night setback models
- Lifetime warranty with single channel ABC logic

SPECIFICATIONS

Supply Voltage	18-30 VAC @ 0.7 VA, 50/60 Hz or 18-42 VDC @ 29 mA	Temperature	32° to 122°F (0° to 50°C)
Accuracy T8100/T8300	400-1250 ppm: 3% or 30 ppm, whichever is greater; 1250-2000 ppm: ±5% +30ppm,	Optional Relay	SPDT, 0.5 A @ 125 VAC, 1 A @ 24 VDC
T8200 Humidity	10% or 75 ppm, whichever is greater;	Sensing Technology	Non-dispersive infrared (NDIR)
Temperature	±2.5% RH (20 to 80% RH)	CO₂	Capacitive polymer
Signal Output	±0.8% @ 72°F (22°C)	Humidity	Passive: 10kΩ Type II thermistor
Measurement Range	0-5V, 0-10V, or 4-20 mA (500 ohms) selectable for CO ₂ , humidity, or temperature (simultaneous current or voltage output for CO ₂)	Warm up time	(CO ₂) 10 minutes
CO₂		Display	Scrolling LCD
Humidity		Response Time	5 seconds
		Operating Temperature	32° to 122°F (0° to 50°C)
		Operating Humidity	0% to 95% RH
		Weight	1.0 lb (0.45 Kg)
		Approvals	RoHS, CE
		Warranty	1 year (lifetime on calibration)

ORDERING INFORMATION

MODEL	DESCRIPTION
T8100	Wall-mount CO ₂ sensor, white
T8100-B	Wall-mount CO ₂ sensor, black
T8100-D	Wall-mount CO ₂ sensor, LCD display, white
T8100-D-R	Wall-mount CO ₂ sensor, relay, LCD display, white
T8100-DB	Wall-mount CO ₂ sensor, LCD display, black
T8100-H	Wall-mount CO ₂ , RH, and active temperature
T8100-HD	Wall-mount CO ₂ , RH, and active temperature, LCD display
T8100-HDB	Wall-mount CO ₂ , RH, and active temperature, LCD display, black
T8100-NS	Wall-mount CO ₂ sensor, white, with nightsetback override button
T8100-NSP	Wall-mount CO ₂ sensor, white, with nightsetback override button
T8200	Wall-mount CO ₂ sensor, no display, white
T8200-B	Wall-mount CO ₂ sensor, no display, black
T8200-D	Wall-mount CO ₂ sensor, LCD display, white
T8200-DB	Wall-mount CO ₂ sensor, LCD display, black
T8300-B	Duct mount, pitot tube kit CO ₂ sensor, black
T8300-DB	Duct mount, pitot tube kit CO ₂ sensor LCD display, black
T8200-D-5P-R	Wall-mount CO ₂ sensor, relay, temperature, LCD display, white
