2020	200	40

PROFIT MARGIN

The profit margin is a financial ratio that shows the percentage of revenue that remains after all expenses have been deducted. It is a key indicator of a company's profitability and efficiency.

Profit margin is calculated by dividing net profit by total revenue and multiplying the result by 100. The formula is as follows:

$$\text{Profit Margin} = \left(\frac{\text{Net Profit}}{\text{Total Revenue}} \right) \times 100$$

Year	Revenue	Profit	Profit Margin (%)
2010	100	20	20%
2011	110	22	20%
2012	120	24	20%
2013	130	26	20%
2014	140	28	20%
2015	150	30	20%
2016	160	32	20%
2017	170	34	20%
2018	180	36	20%
2019	190	38	20%
2020	200	40	20%

As shown in the table, the profit margin remains constant at 20% throughout the period from 2010 to 2020.
