

FEATURES & SPECIFICATIONS

INTENDED USE

To be powered by 6, 12 or 24 volt battery equipment as part of an emergency lighting system providing light for the path of egress. Matches Indura® incandescent family appearance.

CONSTRUCTION

Fully adjustable lamp heads meet all aiming requirements. Lamp head and mounting plate constructed of heavyweight polycarbonate. Removable bezel allows tool-less lamp replacement and easy maintenance.

OPTICS

Krypton, incandescent and halogen composite lamps available in 6 and 12 volts; incandescent only available in 24 volt. Unique, field-adjustable beam pattern for composite lamps by rotating bezel. Incandescent and halogen sealed-beam lamps available on 6 and 12 volts; 6 to 50 watts.

INSTALLATION

Universal mounting base for use with single- or twin-head applications. Base may be installed horizontally for single lamps or vertically for twin-head applications. Attaches to single gang J-box with a 3-9/32" hole spacing or comparable adaptations.

LISTINGS

Listed in accordance with UL 1598.

Note: Actual performance may differ as a result of end-user environment and application. Specifications subject to change without notice.
