

VISION

SAFETY EYEWEAR

TYPE-V

EYEWEAR PROTECTION

Vision Type-V safety eyewear features cutting edge dual lens geometry set within a modern, sporty frame. Stylish, ventilated side arms reduce frame weight as well as increase breathability while their adjustability ensure a close fit for most face shapes and sizes making them comfortable enough to wear all day long.

FEATURES

- 1 Lightweight half-frame design for maximum comfort and style.
- 2 Adjustable soft Thermoplastic Rubber (TPR) co-injected wire core nose pad offers a comfortable secure fit.
- 3 Adjustable wire core soft TPR co-injected temple arms create a personalized comfortable fit.
- 4 Advanced anti-fog lens coating dissipates fogging six times faster than basic anti-fog.
- 5 Ventilated temples for increased airflow, keeping you cool throughout the day.
- 6 Scratch resistant coated polycarbonate lenses provide clarity and protection.
