

## Sensory Bin

For more than 50 years, children and their families have enjoyed reading “The Very Hungry Caterpillar.” Now you can enjoy a fun sensory experience, inspired by this beloved children’s classic.

**Practice  
Fine Motor  
Skills**

**Promotes  
Sensory  
Development**

**Encourages  
Imagination**

### CARE AND SAFETY

- Children should be supervised during play - not suitable for children under 3.
- Prepare the area under the bin with a towel or table cover to collect any spills.
- Children should wash their hands before use.
- Sensory sand should be kept away from the eyes, nose and mouth. If contact should occur, rinse the area with water.
- Water and humidity will change the consistency of your sensory sand - add a bit of water or air dry as needed to return it to its original texture.
- Keep the sensory bin closed when not in use.

## ASSEMBLE

Children will need assistance for this step.

First, decorate the sides of the bin with the clings.

**Note:** If you are having difficulty rearranging the clings, wipe the clings and bin with a damp cloth to remove the sand residue.

Have an adult fill the bin with sensory sand. Spread the sand out evenly and arrange the items in the bin.

## PLAY

Scoop, stamp, and play while engaging your senses. Have fun walking your caterpillar through the sensory bin while you act out the story of “The Very Hungry Caterpillar.”

## TRY THIS

- Count the items inside the bin.
- Identify each fruit and color.
- Make up your own story.
- Memory game: Parents - hide some objects under the sensory sand. Have your child guess what is missing.
