Scrubbing Technologies

Disc

Two disc brushes efficiently clean all hard floors, smooth or irregular, in any setting, effortlessly removing stubborn dirt with higher downpressure.

Cylindrical

Cylindrical brushes scrub and sweep simultaneously, collecting debris in a removable hopper at the rear of the brush head for easy emptying.

Orbital

Orbital scrub decks provide superior cleaning performance, effectively removing stubborn dirt while minimizing water usage.

Join The Connected Cleaning World*

Keep tabs on your machines remotely whenever you want and from wherever you want!

Hillyard Fleet Management

GEOLOCATION

Know where your machines are.

USAGE DATA

Know who's using your machine and how it is being used.

MAINTENANCE

Know the health status of machines.

TELEMETRY†

Critical machine data is always being monitored for peak performance.

An authorized Hillyard Trident Service Center can view real-time telemetry data, diagnose systems, and update settings over the internet - keeping your equipment running at peak performance - and minimizing downtime.

* Requires optional Hillyard Fleet Management module and subscription.

† Battery charging information is available on equipment with onboard charging systems.
