

# Tsunami

A surge of 60-day protection

The Tsunami urinal screen covers more surface for better splash protection. It's designed with vertical and horizontal protrusions to diffuse and deflect more urine.

## 60 days of fragrance

Contains almost 3x more fragrance than competitive screens.

## No suction cups

Designed to lean upright in most urinals for faster installation and removal.

## No installation errors

The double-sided design virtually eliminates urine splash on either side.

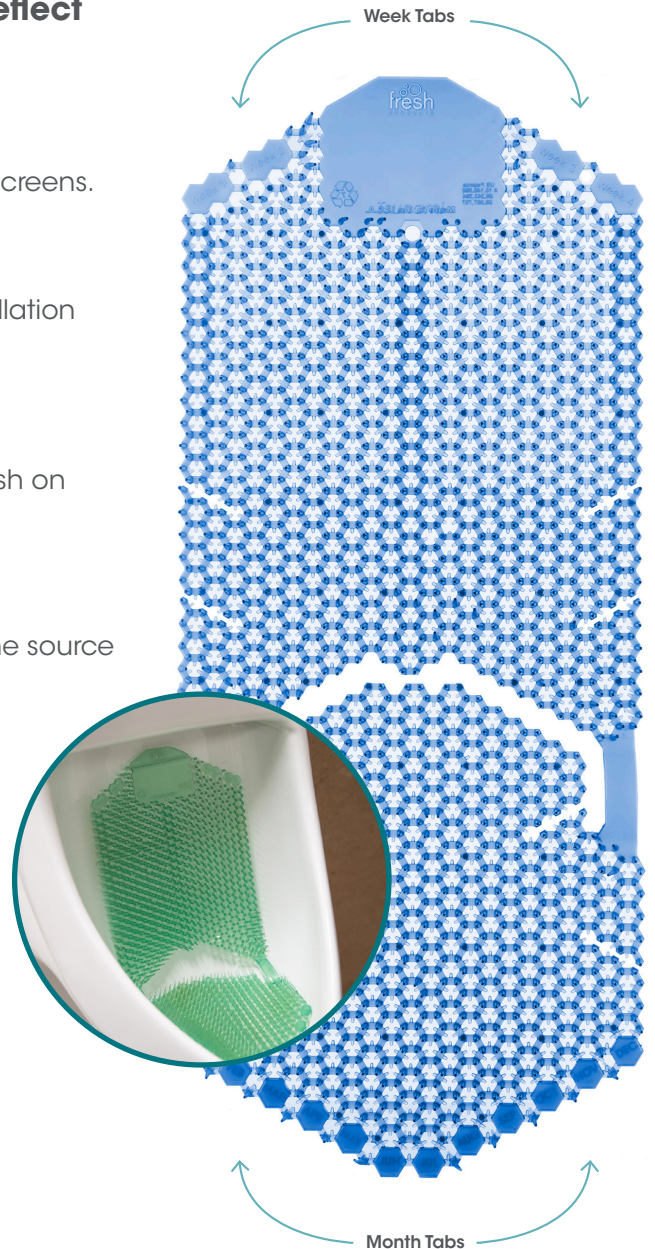

## As always

Contains beneficial bacteria that consume odors at the source and date tabs to remind when to replace.
