

# Outdoor Hollow Blocks

## Care Guide

Outdoor Hollow Blocks feature substantial, framed blocks intended for large, interactive structures. With blocks and boards of varying shapes and sizes, the set encourages group participation, problem solving and teamwork. Smallest block measures 11"W x 5.5"L x 5.5"H. Largest block measures 22"W x 5.5"L x 5.5"H. Ages 3+.

**Care Instructions:** Outdoor Hollow Blocks are for use indoors or outdoors, but should be stored in a dry, covered setting when not in use. Repeated exposure to water and sunlight will cause splitting and cracking. Made of FSC certified eucalyptus wood, the material will weather to a soft gray color over time. The blocks do not have a finish, allowing the natural grain to be the point of contact by children when building, enhancing their experience with natural materials. If the grain raises, use light-grade sandpaper to bring back the original, smooth-sanded feeling.

**Warranty:** Outdoor Hollow Blocks are warranted to be free from defects in material and craftsmanship for a period of three (3) years. This warranty does not apply to damage caused by abuse, misuse, improper care or altered product. This warranty is provided to the original purchaser with proof of purchase and is nontransferable. The manufacturer's liability under this warranty is limited to the repair or replacement of the defective product, at the manufacturer's sole option. This express, limited warranty is granted in lieu of all other warranties. For information on warranty claims, contact the retailer from whom you purchased the product.
