

The graph shows the number of people in the labor force from 1980 to 2010. The y-axis is labeled 'Number of people' and ranges from 0 to 100 million. The x-axis is labeled 'Year' and ranges from 1980 to 2010. The line shows a steady upward trend, starting at approximately 60 million in 1980 and reaching about 100 million by 2010. A small inset graph in the top right corner shows a zoomed-in view of the data from 1980 to 1990.

QUESTION

1. The number of people in the labor force in 1980 was approximately 60 million. In 2010, it was approximately 100 million. How many more people were in the labor force in 2010 than in 1980?

ANSWER: 40 million
