

CRC Industries NZ, Auckland NZ

I. Product Description

CRC Carpet & Upholstery Cleaner cleans & deodorizes a variety of surfaces in your car, boat & home. The unique formulation will remove even the toughest stains, while the deodorant eliminates odours leaving surfaces smelling fresh.

CRC Carpet & Upholstery Cleaner is ideal for use on carpets, vinyl, vinyl roofs, leather, cloth, velour, metal, wood, rubber and paintwork. Easy to use, simply spray on and wipe off and has a brush lid for those stubborn stains.

Do not use on interior plastics. Do not use on hood linings as it may soften some adhesives.

II. Features & Benefits

- For use in your car, boat & home
- Suitable for a variety of surfaces including dash boards & door trims
- Contains a deodorising fragrance – Eliminates bad odours
- Solvent-free – Will not discolour surfaces or attack adhesives
- Foaming spray pattern – Allows to soak into the material
- Removes stains - Breaks the bond between dirt and material
- Brush Lid – For stubborn stains
- Easy to use – Spray on, wipe off.
- Made in NZ

III. Application and Directions

- Shake can well.
- Test first for colour fastness on a small inconspicuous area.
- Spray surface to be cleaned.
- Wait 30 seconds and wipe off with a damp cloth.
- For stubborn stains use the brush on the cap to work the foam into the stain, before wiping off with a damp cloth.
- For persistent stains a repeat application may be required
- Do not use on interior plastics. Do not use on hood linings as it may soften some adhesives.

VI. Special Precautions

Aerosol Cans:

Do not puncture, incinerate or store above 50°C. Exposure to high temperatures may cause the can to burst. Do not place in direct sunlight or near any heat source. Aerosol cans will conduct electricity. Keep away from all live electrical sources including battery terminals, solenoids, electrical panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

First Aid:

If in Eyes – Immediately hold the eyelids apart and flush the eye continuously for at least 15 minutes with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.

Refer to Material Safety Data Sheet for more details.
