

## **AS-SPKR-8** GLASS BOOKSHELF SPEAKER STANDS

 **SALES** 866-839-9187

### PRODUCT OVERVIEW

The Helios Bookshelf Speaker Stand is a modern and functional piece of furniture for any home audio system. The stylish black glass top is supported by a solid black aluminum pillar that hides the wiring and supports up to 22 pounds of weight. This speaker stand features anti-vibration sound decoupling pads for use on hard floors. The decoupling feet reduce vibration and allow the sound to travel as intended by the speakers.

- Features sound decoupling pads to reduce vibration on hard floors
- 23.6" tall
