WARNING

Caution, restricting airflow may result in equipment overheating.

Vent hole punch outs must be removed to provide adequate venting and cooling of electronic equipment. If power exceeds a maximum recommended wattage of 400 W per shelf location, the door must be left open when in use. Failure to do so could restrict airflow and may result in equipment overheating.

Precaución, la restricción del flujo de aire puede provocar el sobrecalentamiento del equipo.

Las perforaciones de los orificios de ventilación deben retirarse para proporcionar ventilación y enfriamiento adecuados de los equipos electrónicos. Si la potencia excede un va taje máximo recomendado de 400 W por ubicación de estante, la puerta debe dejarse abierta cuando esté en uso. De lo contrario, se podría restringir el flujo de aire y el equipo podría sobrecalentarse.

Attention, la limitation du débit d'air peut entraîner une surchauffe de l'équipement.

Les perforations des trous d'évent doivent être retirées pour permettre une ventilation et un refroidissement adéquats de l'équipement électronique. Si la puissance dépasse une puissance maximale recommandée de 400 W par emplacement, la porte doit rester ouverte lors de son utilisation. Si vous ne le faites pas, cela pourrait limiter le flux d'air et entraîner une surchauffe de l'équipement.
