

Geography

Geography is the study of the Earth and its features, including the atmosphere, hydrosphere, lithosphere, and biosphere. It is a multidisciplinary field that combines physical and human geography.

Physical Geography	Human Geography
Topography	Population
Climate	Urbanization
Hydrology	Transportation
Soil Science	Development

Physical geography focuses on the natural environment, including landforms, climate, and water. Human geography focuses on the human impact on the environment, including population, urbanization, and development.

LINGSTON

1. The map shows the coastline of the Lingston area, which is a peninsula. The major roads are shown as thick black lines, and the coastline is shown as a wavy line. The map is labeled with 'Lingston' at the top and 'Lingston' at the bottom.
