

1. **Identify the components of the cell.**  
2. **Describe the function of each component.**  
3. **Explain the process of cell division.**

4. **Discuss the role of the cell membrane.**  
5. **Explain the process of osmosis.**  
6. **Describe the structure of a cell wall.**

7. **Explain the process of photosynthesis.**

8. **Explain the process of cellular respiration.**

9. **Describe the structure of a cell wall.**
