

Carpet Shampoo

Encapsulating high foaming formula for rotary cleaning methods that saves you time and money.

Features & Benefits

- Powerful surfactant and polymers
- Removes deeply embedded soils
- Leaves no tacky residue which can lead to resoiling
- Pleasant fruity floral scent

Applications

- High-foaming formula for rotary cleaning methods that uses encapsulation to remove deeply embedded soils. Safe to use on all carpets, including wool. Test for colorfastness in an inconspicuous area before use

Carpet Shampoo

Use instructions

Vacuum carpet thoroughly and pre-treat spots prior to cleaning.

For Rotary Shampooing: Dilute 4 oz Shampoo with 1 gallon water (121 mL per 3.78 liter).

For Dry-Foam methods: Dilute 8 oz Shampoo with 1 gallon water (242 mL per 3.78 liter).

1. Follow manufacturer's directions for specific machine used.
2. Allow to dry thoroughly and vacuum to remove dried foam and soil.
3. Groom carpet with clean carpet rake or stiff synthetic broom.

Note: Test for colorfastness in an inconspicuous area before use.
