

# Dahle 558s Rotary Trimmer

Dahle Professional Series

The Dahle 558s Professional Rotary Trimmer with a 58 1/8" cutting length is designed for precision and accuracy. It features a ground self-sharpening blade, an automatic clamp to prevent shifting, and a metal base for durability. It includes a space-saving stand to ensure optimal cutting height. This German engineered cutter is ultraprecise and ideal for trimming paper, photographs, and cardstock.

## SELF-SHARPENING

This trimmer features a self-sharpening cutting system. No need to worry about replacing dull or worn blades, this system sharpens as you cut to maintain a perfectly honed edge. The blade's precision graduated edge will remove even the tiniest sliver of paper, and produce a clean, burr free cut.

## AUTOMATIC CLAMP

Holding your work securely by hand is no longer necessary. The trimmer's integrated, automatic clamping system provides even pressure that prevents your work from shifting.

## METAL BASE

For durability, this German engineered trimmer features a sturdy metal base. It's a solid foundation that will never warp or crack.

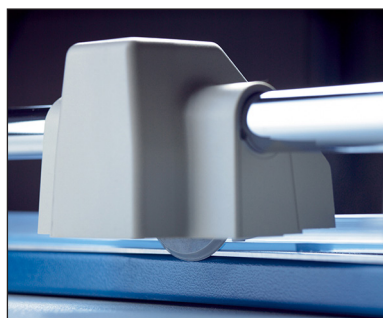

## ALIGNMENT GUIDES

For measuring, the base contains carefully screened inch and metric guides to help align your cuts.

Dahle's 558s Professional Rotary Trimmer is a popular choice among professional photographers, print shops, and graphic design agencies.

## Product Features
