FOR USE WITH STRING LIGHTS

## USER GUIDE

# INSTALLATION

## IMPORTANT: READ BEFORE USE

Read the entire Directions for Use and Instruction Manual (including Conditions, Disclaimer of Warranties and Limitations of Liability) before using this product. If terms are not acceptable, return the product container at once. By using this product, user or buyer accepts the following conditions, disclaimer of warranties and limitations of liability.

## INSTALLING YOUR TIKI® BRAND PLUG & REPEL

### 1 PREPARING YOUR LOCATION

- Remove the device and repellent pod from the box.
- Ensure your string light height is 8 ft. to achieve repellency.

# INSTALLATION

The repellent device can be used with most commercially available 120Vac powered string lights that use an E26 base. Ensure the selected string light is rated for a 6W bulb load or greater. Follow original string lights manufacturer's directions. For use in outdoor string lights only.

## 2 SETUP CONFIGURATION

⊙ - REPELLENT  
DEVICE

● - EXISTING LIGHT

↻ - REPELLENT  
ZONE

⊙ - PROVEN  
MOSQUITO  
PROTECTION

# INSTALLATION

## 3 INSTALLING THE REPELLENT DEVICE

- Ensure your string lights are unplugged.
- Insert the repellent device (A) without the repellent pod (B) into the selected location on your set of outdoor string lights. Make sure the unit is screwed in tightly.
- Do not handle with wet hands or while raining.

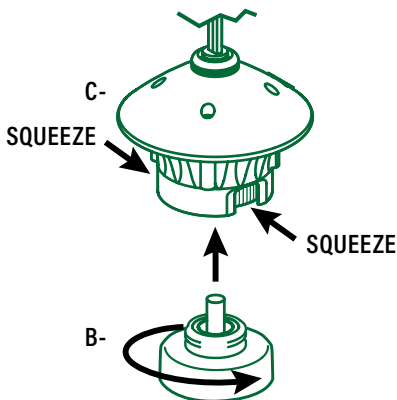

# INSTALLATION

## 4 INSTALLING THE REPELLENT POD

- Unscrew the cap from the repellent pod.
- Insert the pod (B) into the mosquito repellent diffuser shade (C) and turn the pod (B) until fully inserted and secure. Squeeze both notches and twist the base of the pod.
- Before turning the repellent on with the remote, ensure the pod is in place.

**DO NOT refill mosquito repellent pod refill**

# INSTALLATION

## 5 USING TIKI® BRAND BITEFIGHTER® PLUG & REPEL

- To activate the repellent press the ON button on the remote (D). The LED indicator on the repellent device (A) will turn white when the unit is on. Let the TIKI® Brand BiteFighter® Plug & Repel run for 45 minutes to establish protection.
- To deactivate the repellent press the OFF button or unplug your string lights.
- To use multiple devices press the button on the remote to turn each device on/off. TIKI® Brand BiteFighter® Plug & Repel operate independently, but may be activated with the same remote.
- Regularly check the fluid level in the pods. If the fluid level is at or near the bottom of a pod (B), unplug your string lights and follow step 4 to maintain continuous protection.

# TIPS AND TRICKS

## TIKI® BRAND BITEFIGHTER® PLUG & REPEL

- The repellent device can be used with most commercially available 120Vac powered string lights that use an E26 base. Ensure the selected string light is rated for a 6W bulb load or greater.
- If the repellent device does not turn on, unplug the string lights and confirm that the device is tight in the socket.
- Hang lights 8 feet above the ground and let the mosquito repellent device run for 45 minutes to establish protection.
- Regularly check and replace empty pods.
- One unit provides a protection zone of 110 sq. ft. Multiple devices can be used 12 feet apart to expand area of protection.

**DO NOT refill mosquito repellent pod refill**

## NOTICE

- Do not use the TIKI® Brand BiteFighter® Plug & Repel until you have read the operating instructions and user warnings.
- Risk of electric shock and fire hazard: use only with an outdoor-rated 120Vac electrical outlet.
- Follow original string lights manufacturers directions

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

## **FCC WARNING**

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## **NOTE**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
