

suma[®] Klear

A10

Rinse Aid

Mid-range rinse aid especially for high total dissolved solid water conditions. Ensures that even problem water sheets off glasses and ware, allowing rapid drying without water spots or difficult mineral deposits.

Features & Benefits

- Ensures that even problem water sheets off glasses and ware, allowing rapid drying without water spots or difficult mineral deposits
- Mid-range rinse aid especially for hard water conditions
- Precise dosing ensures consistent sparkling results, coupled with real cost control

Applications

- Automatically injected by dishmachine

Suma[®] Klear A10

Rinse Aid

Use Instructions

- Product is automatically injected into the final rinse line of the dishmachine using the appropriate Diversey injector
- Use level will vary depending on operating and water conditions and will be recommended by your Diversey representative
- Final rinse temperature should be 179.6°F to 194°F (82°C to 90°C) for optimum results
- Store at room temperature and avoid freezing
- **For Food Plant Use:** Avoid contamination of food during use or storage. Cookware or utensils and other equipment and surfaces subject to direct contact with food must be thoroughly rinsed with potable water prior to re-use.

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate. Please refer to the Diversey HazMat Library, only available through Internet Explorer, <http://naextranet.diversey.com/dot/>, for up-to-date shipping information.
