A-1 Thank You...

Thank you for choosing this car seat, referred to throughout this manual as a booster seat. Dorel Juvenile Group, (DJG) is committed to creating convenient, comfortable, and dependable products for children.

No one can predict if use of a restraint system will prevent injury or death in a particular crash. However, combined with careful driving, proper use of a restraint system can lower a child's risk of injury or death in most crashes.

Your child's safety is worth the time it will take to read, understand and follow the instructions and warnings.

After reading if you still have questions or concerns with the restraint system please contact our Consumer Relations Department.

On the bottom of the shell there is an expiry date for use of this booster seat. Do not use this seat after the expiry date.

A-3 Registration and Safety Notices

Although booster seats are tested, evaluated and certified by the manufacturer and tested by Transport Canada, it is possible that a safety-related problem may be found. If there is ever a safety issue with your booster seat, we use registration information to reach owners.

A. Before You Begin

A-4 Understanding Your Booster Seat

A. Armrest

B. Seat Pad
(styles may vary)

C. Instruction Manual Storage
(under seat pad, under storage label)

7

⚠ WARNING:

Failure to read, understand and follow the instructions and warnings in this instruction manual and the warnings on the system could result in serious injury or death to the child.

B-1 Vehicle Seating Position

⚠ Always check vehicle owner's manual for booster seat use with front or side air bags.

⚠ For vehicles with no rear seats, check the vehicle owner's manual for location and installation of a booster seat.

B-2 Installation in Vehicle

⚠ When unoccupied, the booster seat must be firmly secured to the vehicle with the vehicle's seat belt only.

8 *continued on next page.*

B. Safety Information

- ▲ In a crash or sudden stop, an unsecured booster seat could injure the driver or other occupants in the vehicle.
- ▲ Do not use the booster seat with a lap belt only.
- ▲ In very few vehicles, the booster seat cannot be properly installed because of the type of seat belt system and/or air bag system. Always read and follow the vehicle owner's manual instructions for booster seat use.

B-3 Booster Seat Use

- ▲ Do not use a booster seat that has been in a crash or a collision. The system must be replaced.
- ▲ Do not use a booster seat if you do not know the history of the restraint.
- ▲ Never take your child out of the booster seat or attend to the child's needs while the vehicle is moving.

- ▲ Never leave child unattended in the booster seat.
- ▲ To avoid the child being seriously burned, always check for hot seat and buckles before using this booster seat.
- ▲ Do not use a booster seat with missing or damaged parts.
- ▲ DJG does not recommend the use of accessories or add-ons that have not been certified with this booster seat at original purchase date.
- ▲ Never allow any child to play with this booster seat; it is not a toy.
- ▲ Do not remove the warning labels.
- ▲ This booster seat has been certified for use in passenger vehicles only. Do not use in a boat, motorcycle, aircraft or in a cargo van or bus where there are no seat belts.
- ▲ Read all instructions and warning labels for additional warnings.

B-4 Transport Canada Regulations

Transport Canada Road Safety Directorate regulates children's restraint systems under the Motor Vehicle Restraint Systems Safety Regulations (RSSR). The regulations require the manufacturer and/or importer to certify the booster seat to the applicable safety standards and place specified warnings and information on the labels fastened to each booster seat and in this instruction manual.

B-5 Storing Your Booster Seat

To protect your booster seat, store in the house, not in the garage or attic. The hot and cold temperatures can harm the shell if stored for a long period of time.

C-1 Choose Position for Your Child

Your child's height, weight and age determine how your booster seat should be used and placed in the vehicle.

**18-45 kg
(40-100 lbs.)
102-145 cm
(40-57 in.)
and at least 4
years old
Booster Seat
using vehicle lap/shoulder belt
combination**

Child and booster seat are placed in the back seat, facing the front of the vehicle.

⚠ WARNING:
Verify your child's weight and height (do not guess) before using this booster seat.

C. Basic Use

C-2 Removing Seat Pad for Cleaning

⚠ WARNING:

Do not use this booster seat without the seat pad. Failure to do this can result in serious injury.

Remove Pad

Starting from the front, pull seat pad off the shell and over the armrests.

Cleaning Pad

Machine wash separately with cold water on a gentle cycle. Do not use bleach. Tumble dry separately for 10-12 minutes on low heat. Remove immediately.

Replacing Pad

Slip pad over the armrests and around the back of the shell. Pull pad over the front of the seat. Replace instruction manual.

13

D-1 Understanding Your Vehicle

Your vehicle's features may be considerably different than those pictured here. Consult your vehicle owner's manual to help identify your vehicle's specific features and locations.

Vehicle Seat Belts

Consult your vehicle owner's manual for vehicle belt use.

Seat Bight

D. General Vehicle Installation

14

D-2 Vehicle Seating Position

⚠ WARNING:

Use the booster seat only on vehicle seats that face forward. Do not use on seats that face the sides or rear of the vehicle. For vehicles with an air bag, but without a back seat, refer to your vehicle owner's manual.

In very few vehicles, the booster seat cannot be properly installed because of the type of seat belt system or air bag system. Always read and follow the vehicle owner's manual instructions for booster seat use.

15

Safety Tip:

Children are safer when properly restrained in rear seating positions than in the front seating positions.

According to accident statistics, children in rear seating positions are statistically safer, whether you have air bags, advanced air bags, or no air bags at all.

To help protect your vehicle seat's upholstery from damage, use a single layered towel underneath and behind booster seat.

To avoid your child being seriously burned, take the following precautions:

1. Park in the shade or where sun does not directly hit the booster seat.
2. Cover the booster seat with a sheet or blanket when not in use.
3. Check for hot booster seat and buckles before placing child in booster seat.

16

D. General Vehicle Installation

D-3 Knowing Your Vehicle Belts

Review your vehicle's owner manual for vehicle seat belt use with booster seats. This is your best source for information concerning your vehicle.

Not all vehicle belts will work with this booster seat. This booster seat must be tightly locked in place at all times during travel. You must determine if your vehicle's belts are compatible with this booster seat.

Vehicle Belts

• *Automatic/Passive Vehicle Seat Belts*

You **MUST** have a vehicle lap and shoulder belt to install any booster seat.

• *Vehicle Belts in center of the door or side panel*

You must move the booster seat to another seating location.

Consult your vehicle owner's manual.

• *Vehicle Belts that are in front of the seat bight*

You may need to move the booster seat to another seating location. Consult your vehicle owner's manual.

E-1 Booster Seat Aircraft Information

This booster seat is NOT certified for use in aircraft because aircraft seats do not have shoulder belts.

19

F-1 Preparing to Install Booster Seat

Lap/
Shoulder Belt

18-45 kg (40-100 lbs.) and 102-145 cm (40-57 in.) and at least 4 years old.

Booster seat using only vehicle lap/shoulder belt.

⚠ WARNING:

Use only the vehicle's lap and shoulder belt system when restraining the child in this booster seat.

Do not use this booster seat if the tops of your child's ears are above the top of the vehicle seat back or vehicle's headrest.

Failure to follow these warnings can result in serious injury or death.

20

F. Installing Booster Seat

F-2 Installing Using the Lap and Shoulder Belts

1. Place Booster Seat in Vehicle Forward-Facing in the Back Seat

Place booster seat in the back seat, **flush** against the back of the vehicle seat.

NOTE: Make sure you place the booster seat

correctly on the vehicle seat.

2. Place Child in Seat

Place the child's bottom flat against the booster seat. The child's upper and lower back should be flat against the vehicle seat back. This will allow the vehicle belt to be properly tightened.

21

3. Buckle Lap and Shoulder Belt

Thread lap belt under both armrests as shown.

Lap belt should cross the child's thighs (not on the stomach).

The shoulder belt **MUST** go **ON TOP** of the armrest on the vehicle buckle side.

4. The shoulder belt should lay snugly across the center of the child's shoulders and across the chest (not on the face or neck).

Pull up on the shoulder belt to tighten.

Check periodically to ensure your child has not moved out of position and loosened the vehicle belt.

22 *continued on next page.*

⚠ WARNING:

Do not use the vehicle lap belt only when using this booster seat.

The shoulder belt must always be adjusted snugly across the child's chest.

NEVER place the shoulder belt behind the child's back or under the child's arms.

Failure to follow these warnings can result in serious injury or death to your child.

Warranty

Dorel Juvenile Group, Inc. (DJG) warrants this product to the original retail purchaser as follows: This product is warranted against defective materials or workmanship for **one year** from the date of original purchase. **An original receipt is required to validate your warranty.** DJG will, at its option, provide replacement parts or replace this product. DJG reserves the right to substitute if the part or model has been discontinued.

To make a claim under this warranty you may contact us at www.djgusa.com, fax us at 1-800-207-8182 24 hours a day, write to DJG, Consumer Relations Department, P.O. Box 2609, Columbus, IN 47202-2609, or call 1-800-544-1108 from 8:00 a.m. to 6:00 p.m. EST Monday through Thursday and from 8:00 a.m. to 4:30 p.m. on Friday. **Proof of purchase is required and shipping charges are the responsibility of the consumer.**

Warranty Limitations: This warranty does not include damages which arise from misuse or abuse of this product.

Limitation of Damages: The warranty and remedies as set forth are exclusive and in lieu of all others, oral or written, express or implied. In no event will DJG or the dealer selling this product be liable to you for any damages, including incidental or consequential damages, arising out of the use or inability to use this product.
