

System-1 Softener

50C2

Fabric Softener

A laundry fabric softener which provides excellent fabric conditioning and leaves linen with a clean, fresh scent. It is designed for use in commercial and on-premise institutional laundries. Clax® System-1 Softener is formulated for use in all water conditions. Unique wetting agents ensure maximum water removal during the extract which minimizes drying time in the dryers, saving energy and extending linen life.

Features & Benefits

- Dedicated softening agent keeping linen fresh and clean
- Premium wetting agents resulting in reduced drying time
- Minimizes build-up of static electricity in the dryer
- Convenient liquid pack size

Applications

- Can be used in all commercial stainless steel washing machines

Clax[®] System-1 Softener

Fabric Softener

Use Instructions

Concentration varies due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs.

1. Pre-sort laundry prior to wash.
2. Pre-soak and/or pre-spot laundry when necessary.
3. Place proper amount of soiled fabric into laundry machine.
4. This product is designed to be dispensed directly to the laundry machine by a Diversey dispenser and should not be diluted manually.

Your Diversey technician will adjust product concentrations based on results.

Commercial Machines: Dispense automatically with Diversey dispenser.

Warning: Do not mix with incompatible chemicals, such as acids or ammonia.

Food Plant Use: Thoroughly rinse all laundered fabrics used in food plants with potable water before re-use. Avoid contamination of food during use or storage.
