

FIGURE 1 | **2D and 3D models of the proposed system.**
The figure shows two 2D schematic diagrams and one 3D perspective view of a mechanical assembly. The 2D diagrams on the left and right show the assembly from different angles, highlighting various components like a motor, gears, and a frame. The 3D model in the center shows the complete assembly with a central motor and two side units connected by a belt or chain drive system.
