

LEWMAR®

PGX ANCHORS

A QUICK SETTING ANCHOR

Lewmar® PGX galvanized anchors are made with a tough structural steel that is hot-dipped galvanized with a corrosion-resistant finish. Expect quick setting and holding power with these quality anchors. This anchor is built on the LFX platform and doesn't disappoint when it comes to reliability and performance. The T-section flukes set quickly in a variety of seabeds

Features

- Manufactured from S355 structural steel
- Hot-dipped galvanized for tough, durable and corrosion-resistant finish
- T-section flukes set quickly improving holding power
- Weight capacities available from 5 to 21 lbs.
