

Deluxe Block Vent Foam Plugs are sold in pairs. They are used to insulate a crawl space during cold winter months, keeping out unwanted cold air and moisture.

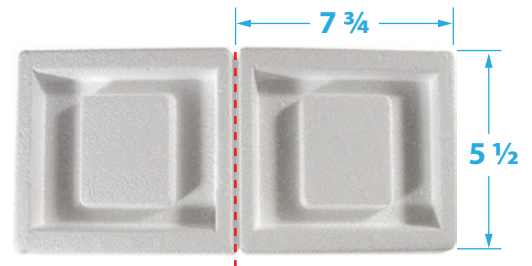

Simply snap the foam plug into two pieces and pressure fit into the block vent. If necessary, foam plugs can be trimmed to fit with a utility knife.

DVBP - 6 ½ in. x 16 in. Foundation Vents

DVBPSM - 5 ½ in. x 16 in. Foundation Vents

DVBPXL - 6-1/2 in. x 18 in. Foundation Vents
